Instagram Growth and Monetization

Howard Hollis, 2020-10-26

If you want to grow your popularity on Instagram and monetize it then keep reading. With more than 500 million active daily users worldwide sharing more than 250 million stories every single day Instagram is the most popular platform in terms of daily time spent. In 2019 users were spending an average of 27 minutes per day on the platform. Like other popular social media giants Instagram is also an attractive platform for the young generation. 64% of Instagram users are aged between 18-29. Only 21% of Instagram users are aged between 50 and 64. Therefore Instagram is an ideal place for businesses looking to target a youth audience but the most sensational thing is that Instagram has created a new way of doing business and marketing which beats every other media existing up to now in the marketplace in terms of turnover. This new way can be summarized in a single figure. The Influencer: a person that can influence potential buyers of a product or service by promoting or recommending the items on social media. This is bringing billions of dollars into the coffers of companies that rely on influencers for the promotion of their products and/or services many more than a simple advertising campaign. For example on TV can do this because the product is filtered by the influence on which the buyer enjoys extreme esteem and trust. This of course leads to large revenues from the influencer who in turn grows their popularity and wealth enough to become a celebrity. But you know what is the truth? He too started from scratch. He too started with 150 followers among friends, relatives and colleagues. This means that there is a way which is not just luck and above all that you can do it too if you follow the instructions in this book step by step. In this book you will discover:

- The N1 secret of profile optimization
- How to increase real engagement
- The 0-10k followers step by step guide
- Discover what Instagram users want and how to get it
- How to make engaging Instagram Stories
- The 3 essential steps for building your brand
- How to deal and negotiate with brands
- How to make money on Instagram in 10 steps
- And much more

If you like many other people do not feel suitable or too shy to expose yourself to social media remember that

Instagram is special because it rewards above all spontaneity I could list hundreds if not thousands of successful cases of real nerds The focal point is that the sectors in which you can specialize are practically infinite and all with a large following rate There are famous influencers because they deal with fashion some with cosmetics others with gardening travel or video games but what rewards and creates a following is spontaneity people are attracted to what resembles them with both strengths and weaknesses so you don't have to be perfect you just have to be you Are you ready for changing your future Don't wait any longer click the buy now button right now
