This paper presents experiential learning exercises as a means of introducing and reinforcing servant leadership practices in organizations. When practiced regularly, these exercises are a means of overcoming the problem of people not applying what they have learned through servant leadership and leadership workshops and training.

As a teacher of leadership, I have always been concerned about how much of what I teach actually makes a difference in the lives of my students and their leadership opportunities. In the past 10 years, I have been able to observe and evaluate this in my undergraduate leadership students, who are supposed to practice leadership on campus, and with my graduate students, who are in established leadership positions in the fields of business, health care, education, non-profit international development, Christian ministry, and university student affairs. I have also been the founder and program director for the Council of Christian Colleges and Universities' Executive Leadership Development Institute, which prepares new university presidents and chief academic officers, and the Leadership Development Institute for developing emerging academic leaders at the departmental and faculty levels. In addition to these long-term roles, I have conducted over 100 leadership workshops of 1 to 5 days duration for such diverse groups as university faculty, school principals, church leaders, police forces, fire departments, hi-tech businesses, and non-profit organizations. All of this came after almost three decades and several careers of leading hundreds of people in multi-million dollar organizations. Each leadership opportunity was a distinct experience as the circumstances, culture, tasks, and people were different, and so it is with my present mantle.

Leadership development is not like a sausage factory where you go in one end and come out the other a leader. Leadership requires adaptation to specific and changing circumstances which makes leadership development a journey rather than a destination. Leadership is also being increasingly built on relationships and, as several recent longitudinal studies have shown, companies with progressive and developmental human resource practices are significantly more profitable and growth-oriented over the long term (Kanter, 1984, p. 19). Leadership cannot be learned only in the classroom. Leadership is more than a position. It is a responsibility that is conferred on a person by someone in authority or by those whom he or she leads. As research from the Center for Creative Leadership in Greensboro, North Carolina, has demonstrated, leadership development may be informed by study and practice, but it becomes a reality only when it is applied in the actual exercise of leadership. Ultimately, there is no substitute for learning leadership skills through on-the-job training and learning (McCall, 1988, 1998). But most leaders need help in converting those experiences into valuable lessons for their leadership, and that is where leadership guidance, understanding, and development are required beyond the job. When an action-oriented leader gets under pressure, he or she usually reverts to

Jane C. Kendall,1990 **Reflections on Leadership** Larry C. Spears,1995-05-29 I believe that Bob Greenleaf s essay The Servant as Leader is the most singular and useful statement on leadership that I have read in the last 20 years Despite a virtual tidal wave of books on leadership during the last few years there is something different about Bob Greenleaf s essay something both simpler and more profound For many years I simply told people not to waste their time reading all the other managerial leadership books If you are really serious about the deeper territory of true leadership I would say read Greenleaf from Chapter 20 by Peter M Senge Director of the Center for Organizational Learning at MIT s Sloan School of Management and author of The Fifth Discipline The Art and Practice of the Learning Organization There is a building momentum for enlightened leadership in the for profit world the social sector and many areas of government today Good books that deal with the beliefs and convictions that nurture this movement are not easy to find This is one Reflections on Leadership is a worthy and worthwhile gift to all those who attach high value both to their responsibilities and to the people with whom they work from the Foreword by Max DePree Chairman and CEO of Herman Miller Inc and author of Leadership Is an Art and Leadership Jazz I could give you three examples of major businesses who have used this business of servant leadership training at times of terrible crisis and have worked themselves out of the crisis Practicing servant leadership had absolutely enormous incredible benefits for them and then they threw it away Because as soon as the crisis passed they said why exert ourselves The great problem is not how to teach servant leadership in the first place but to get organizations to continue to use it and embed it in part of their culture from Chapter 7 by M Scott Peck author of The Road Less Traveled Reflections on Leadership is fitting tribute to a man whose own sense of service has given all of us hope that at

long last leaders will recognize that power of purpose is far stronger than power of position After nearly 30 years Robert K Greenleaf s work has struck a resonant chord in the minds and hearts of scholars and practitioners alike His message lives through others the true legacy of a servant leader Jim Kouzes Chairman and CEO of TPG Learning Systems and coauthor of The Leadership Challenge and Credibility We are each indebted to Greenleaf for bringing spirit and values into the workplace His ideas will have enduring value for every generation of leaders Peter Block Founding Partner Designed Learning Inc and author of The Empowered Manager Flawless Consulting and Stewardship Choosing Service Over Self Interest In the twenty five years since Robert K Greenleaf first articulated his vision of servant leadership the world has seen a steady expansion in the influence of the man and his ideas Hailed as the grandfather of the modern empowerment movement in business leadership Greenleaf described true leaders as those who lead by serving others empowering them to reach their full potential He saw the ideal leader as one who transforms and integrates an organization a steward with a commitment to the growth of people and the building of a community Reflections on Leadership demonstrates the scope of Greenleaf s impact on contemporary management theory and offers key essays by Greenleaf and his leading business and intellectual disciples They include such influential thinkers as M Scott Peck author of The Road Less Traveled and Peter Senge author of The Fifth Discipline Despite all the buzz about modern leadership techniques no one knows better than Greenleaf what really matters Working Woman magazine Reflections on Leadership opens with two remarkable essays by Greenleaf himself One of them Reflections from Experience published here for the first time presents Greenleaf s prophetic observations on the use of executive power in an organization In Life s Choices and Markers Greenleaf recounts five significant influences that led him to develop his revolutionary ideas on the nature of leadership Servant leadership deals with the reality of power in everyday life its legitimacy the ethical restraints upon it and the beneficial results that can be attained through the appropriate use of power The New York Times In Reflections on Leadership a host of notable management thinkers explore the implications of the servant leadership concept in such areas as Business ethics Team building and servant leadership Corporate risk taking Spirit in the workplace Becoming a servant leader The future of leadership For those who have already benefited from Greenleaf s ideas and wish to deepen their understanding this is an essential book It is also the ideal introduction for those eager to draw on a source of wisdom that has inspired so many others
