

CHAPTER 1

What Is Organizational Communication?

© Can Stock Photo Inc./wecker

Humans are organizational animals; modern life is defined by organizations and corporations.

"Everything communicates."

—Sergio Zyman, former Chief Marketing Officer, Coca-Cola.

We are organizational beings. We go to work, attend college and church, do volunteer work, join social groups, shop at numerous stores, internalize thousands of commercials from large corporations, and participate in social media. Human beings are communicating, organizing creatures, and we define ourselves largely through our various organizational memberships and communicative connections.

As simple as this assertion is, it hides a rather complex reality. The organizations that define who we are—and our relationships to them—have become increasingly complicated. Indeed, as systems of communication, we largely take for granted organizations and their roles in our lives. In a 2005 commencement address at Kenyon College titled "What Is Water?," the late author David Foster Wallace told the following story: Two young fish are swimming along and run into an older fish, who nods at them in passing and says, "Mornin'".

Organizational Communication A Critical Approach:

Organizational Communication Dennis K. Mumby, 2012-08-02 Organizational Communication A Critical Perspective introduces students to the field of organizational communication historically conceptually and pragmatically from a perspective grounded in critical theory and research Author Dennis K Mumby explores how the history of organizational communication theory and research is one that embodies and attempts to resolve the fundamental tensions and contradictions between the individual and the organization By taking a critical perspective to the history theories and research of organizational communication this text seeks to address the following how do we provide ourselves with the analytic and practical tools that will enable us to be more informed and critical consumers of and participants in organizational processes Put more broadly how do we learn to be better informed citizens who can participate effectively in and be advocates of organizational democracy This textbook squarely addresses this problem In keeping with this theme this text goes at great pains to explore the link between theory and practice Mumby shows how management theory and research is of vital importance to our understanding of daily struggles for control over work and organizing processes The critical perspective throughout helps students understand how over the course of the last 100 years corporations have sought more and more sophisticated methods of constructing our identities in ways that are commensurate with organizational world views and goals Features unique to this text include the combination of the following issues A thematic critical perspective on organizational communication with analysis of traditional and contemporary approaches to organizational communication Integrated discussion of ethics and technology A full chapter on gender and organizational communication A full chapter devoted to issues of organizational democracy

Organizational Communication Dennis K. Mumby, Timothy R. Kuhn, 2018-11-29 While traditional in its coverage of the major research traditions that have developed over the past 100 years Organizational Communication is the first textbook in the field that is written from a critical perspective while providing a comprehensive survey of theory and research in organizational communication Extensively updated and incorporating relevant current events the Second Edition familiarizes students with the field of organizational communication historically conceptually and practically and challenges them to critically reflect on their common sense understandings of work and organizations preparing them for participation in 21st century organizational settings Linking theory with practice Dennis K Mumby and new co author Timothy R Kuhn skillfully explore the significant role played by organizations and corporations in constructing our identities
