The Seven Strategies of Hand to Hand Combat Ernest Emerson, 2015-04-08 This is not a book about techniques Black Belt Hall of Famer and Tier One tactical instructor Ernest Emerson opens the doors to the previously hidden Strategies Tactics and Mentality of the world's deadliest warriors giving you the tools to upgrade your training in any system into a truly effective program of combat ready skills Emerson's genius is in being able to break down human conflict combat into its most basic component parts and then explain them in terms that make perfect sense Then in turn he gives you the ability to train and supercharge those components individually so that when they are reassembled the result is an Abrams tank powered by jet engines But if you're looking for a book on how to block a punch you won't find it here This is about giving you the means to create a supercharged capability to take what you already know to the elite level ready for actual combat The difference between tier one operators and the rest of us is not that they know more techniques or possess secret skills They know the same things as we do They just know how to do them much better Emerson takes you into his classroom to teach you the real secrets the forbidden knowledge of the warrior elite America's Special Operations and Black Ops Units The problem with training for real world hand to hand combat skills is that almost all martial arts are over 200 years removed from actual combat and have been softened up or sporterized to be palatable to the general public The difference between conventional training and combatives training is defined by two simple words intent and intensity Each needs the other to be maximally effective and conventional martial arts lack both Without truly knowing if something will actually work in live combat how can an instructor teach combat skills to someone whose life may depend on those skills If you are ever in a situation where you're face to face with pure evil and you're not both physically and mentally prepared for violent deadly combat then that is the day you will likely die The author shows that you must be able to bring violence of action against the bad guy to such a degree that it doesn't just counter his attack but destroys him for attempting to do you harm You will learn how to evaluate your current training against the criteria of the perfect technique to judge everything you do as to whether it will work in real combat or not and avoid wasting your valuable time doing things that are of no value Learning and applying principles and concepts outlined in this book will give you the confidence you need to never again wonder Will this really work or Can I do this You will learn that the true mastery of fighting skills is not just based on confidence in the techniques but ultimately in the confidence you have in yourself Some of the subjects covered in detail include 1 The principles strategies and tactics of combat 2 The physical physiological and psychological effects of combat on the human body and how to use them to your advantage 3 The 3 Laws of Combat and the 6 Instinctual Triggers 4 The high art of preemptive self defense 5 The importance of being able to distinguish between capability and capacity Combative fighting

skills is not a martial art It is hard intense painful training along with the development of the Warrior Mindset Without that mindset and the iron will to win you are only using half of your power The other half is in the mind You will learn how important it is to never neglect one for the other Ernest Emerson has worked with members of the Naval Special Warfare Community Navy SEALs for over 25 years He carried a DOD top secret clearance for 15 years He is the owner of Emerson Knives Inc and the Black Shamrock Combat Academy in Los Angeles California *The Tactical Skills Of Hand-to-Hand Combat* Bradley J. Steiner,2008-07-01 When Bradley Steiner self published *The Tactical Skills of Hand to Hand Combat Self Defense* in the mid 1970s it sold out two sizable printings within eight months In it Steiner outlined the 12 tactical principles of self defense from his American Combato™ system which he had created in 1975 and which he still teaches today A fusion of World War II close quarter combat traditional martial arts and realistic self defense incorporating lessons from Rex Applegate W E Fairbairn E A Sykes and Charles Nelson among others Steiner s program also included modern weapons and the excellent if unorthodox dirty tricks of alley street and prison fighting with which he had become familiar through his training of and association with New York Police Department officers An entertaining and enlightening new introduction by the author provides a concise and illuminating history of the early days of self defense training in the United States Paladin Press is pleased to add this legendary self defense manual to its *Combat Classics* collection *Get Tough: The Shadow Warrior Edition* Ron Collins,2015-08-01 This book is omage to Major W E Fairbairn with added text analyzing the Fairbairn method of Hand to Hand Combat As a former Hand to Hand combat instructor in the US Army Sensei Ron Collins examines offers some modern explanation and interpretation of Major Fairbairn s system This book contains the original text of *Get Tough* with added commentary by Sensei Ron Collins including an 8 day Home Self Defense Boot Camp schedule and other recommendations for this introduction to W E Fairbairn s combatives system **An American Method in Hand-to-hand Combat** Edward David O'Donnell,Marvin Allen Stevens,1943 **Unarmed Combat** Martin J Dougherty,2012-05-25 With the aid of superb line artworks *Unarmed Combat* demonstrates how different martial arts have been combined by special forces units to create hand to hand combat systems for defence against multiple assailants and explains what works and what doesn t The book is the definitive guide for anyone wanting to be ready for anything **Combat Applications Techniques** Andrew Curtiss,2008 Death smiles upon us all All we can do is Smile back Russel Crowe *Gladiator Survival* is the objective of this book When faced against an armed adversary we value our life above all else The sole purpose of existence turns to survival when life hangs in the balance The life that we hold so precious becomes fragile when we find ourselves staring death in the face Often times we don t recognize that it could only take seconds to have our lives bled out from underneath us It is only in the times of peril and we realize that our life is hanging by a thread that *Survival* becomes so important Make no mistake this book is about Every copy sold donates 1 dollar to Save a vet in order to help veterans afflicted with Post Traumatic Stress Disorder PTSD **Get Tough** W.
