Reading Children's Fairytales Mette Lindahl-Wise,Harry Oulton,Vicky Macleroy,Emily Corbett,2025-11-17 Fairytales

form a cornerstone of children's and YA literature studies and the tale of Hansel and Gretel has been translated, adapted, and retold across the years. Reading Children's Fairytales Inside the Gingerbread House brings together leading and emerging researchers and practitioners to showcase how interdisciplinary approaches enable diverse responses to texts. This edited collection opens up possibilities for cross-pollination between critical, multimodal, and creative approaches. It celebrates multiple forms of knowledge and meaning-making within and beyond academic discourse and engages young people in the conversation. The authors explore a wide range of retellings of Hansel and Gretel from children's picturebooks, graphic novels, poetry, and young adult fiction to sculpture and Hip Hop to offer a comprehensive investigation of the tale. The volume also benefits from the voices of acclaimed creative writers who create and reflect on retellings that cross cultural and international boundaries. In engaging with such a range of popular retellings, the chapters bring a renewed attention to the need to disrupt hierarchical and canonical perspectives on children's and YA literature.

Children's Picture Books and Contemporary Egyptian Society Yasmine Motawy, 2025-02-25. A social and political history of two decades of Egyptian neoliberalism through children's picture books published in Egypt in the post-2000 era. Children's picture books are some of the most transparently ideological materials available to parents and educators, and as cultural objects, they are an expression of the zeitgeist of a particular era. They reveal much about the hopes, values, and aspirations of the society that produces them, as well as that society's vision of its place in the wider world at large. *Children's Picture Books and Contemporary Egyptian Society* examines a new wave of Egyptian picture books that was published in the current century to see how these books responded to larger societal trends and transformations in Egypt, as well as to explore the ideologies that lie behind them. Yasmine Motawy argues that a host of factors, including the growth of gated communities and international schooling, the proliferation of lucrative literary awards, returning Gulf migrants, television dramas, and nationwide reading advocacy initiatives, helped give rise to a new kind of children's picture book in Egypt. Motawy focuses on three clusters of selected picture books to investigate the extent to which these books reproduce hegemonic discourses or alternatively open up new horizons of childhood agency and societal transformation. The first cluster includes books that directly socialize the child by showing them how things are done in both the domestic sphere and the increasingly globalized spaces that children frequent with their families. The second cluster aims at reframing cultural notions around femininity through the retelling of folk and fairy tales, while the third cluster addresses children's abilities to assess the impact of their actions on their environment and invites them to examine their personal suitability to positions of power and stewardship.
