## **Peter Brook S The Open Door:**

*The Open Door* Peter Brook, 1995 From King Lear to the Tragedy of Carmen from Marat Sade to the epic Mahabharata Peter Brook has reinvented modern theatre not once but again and again In this book the visionary director and theorist offers a lucid comprehensive exposition of the philosophy that underlies his work It is a philosophy of paradoxes We come to the theatre to find life but that life must be different from the life we find outside Actors have to prepare painstakingly yet be willing to sacrifice the results of their preparation The director s most reliable tool may be his capacity to be bored Brook illustrates these principles with anecdotes that span his entire career and that demonstrate his familiarity with Shakespeare Chekhov and the indigenous theatres of India and Iran The result is an unparalleled look at what happens both onstage and behind the scenes fresh in its insights and elegant in its prose

Architecture as a Performing Art Marcia Feuerstein, Gray Read, 2016-04-15 How do buildings act with people and among people in the performances of life This collection of essays reveals a deep alliance between architecture and the performing arts uncovering its roots in ancient stories and tracing a continuous tradition of thought that emerges in contemporary practice With fresh insight the authors ask how buildings perform with people as partners rather than how they look as formal compositions They focus on actions the door that offers the possibility of making a dramatic entrance the window that frames a scene and the city street that is transformed in carnival The essays also consider the design process as a performance improvised among many players and offer examples of recent practice that integrates theater and dance This collection advances architectural theory history and criticism by proposing the lens of performance as a way to engage the multiple roles that buildings can play without reducing them to functional categories By casting architecture as spatial action rather than as static form these essays open a promising avenue for future investigation For architects the essays propose integrating performance into design through playful explorations that can reveal intense relationships between people and place and among people in place Such practices develop an architectural imagination that intuitively asks How might people play out their stories in this place and How might this place spark new stories Questions such as these reside in the heart of all of the essays presented here Together they open a position in the intersection between everyday life and staged performance to rethink the role of architectural design

The Crisis of Calvinism in Revolutionary England, 1640-1660 Rev. Andrew Ollerton, Andrew Ollerton, 2023 This book investigates a puzzling and neglected phenomenon the rise of English Arminianism during the decade of puritan rule Throughout the 1650s numerous publications from scholarly folios to popular pamphlets attacked the doctrinal commitments of Reformed Orthodoxy This anti Calvinist onslaught came from different directions episcopalian royalists Henry Hammond Herbert Thorndike Peter Heylyn radical puritan defenders of the regicide John Goodwin and John Milton and sectarian Quakers and General Baptists Unprecedented rejection of Calvinist soteriology was often coupled with increased engagement with Catholic Lutheran and Remonstrant alternatives As a result sophisticated Arminian publications emerged on a scale that

far exceeded the Laudian era Cromwellian England therefore witnessed an episode of religious debate that significantly altered the doctrinal consensus of the Church of England for the remainder of the seventeenth century The book will appeal to historians interested in the contested nature of Anglicanism and theologians interested in Protestant debates regarding sovereignty and free will Part One is a work of religious history which charts the rise of English Arminianism across different ecclesial camps episcopal puritan and sectarian These chapters not only introduce the main protagonists but also highlight a surprising range of distinctly English Arminian formulations Part Two is a work of historical theology which traces the detailed doctrinal formulations of two prominent divines the puritan John Goodwin and the episcopalian Henry Hammond Their Arminian theologies are set in the context of the Western theological tradition and the soteriological debates that followed the Synod of Dort The book therefore integrates historical and theological enquiry to offer a new perspective on the crisis of Calvinism in post Reformation England
