Frangopol,Jose Turmo,2022-06-27 Bridge Safety Maintenance Management Life Cycle Resilience and Sustainability contains lectures and papers presented at the Eleventh International Conference on

Bridge Maintenance Safety and Management IABMAS 2022 Barcelona Spain 11-15 July 2022 This e-book contains the full papers of 322 contributions presented at IABMAS 2022 including the T.Y. Lin Lecture, 4 Keynote Lectures and 317 technical papers from 36 countries all around the world. The contributions deal with the state of the art as well as emerging concepts and innovative applications related to the main aspects of safety, maintenance, management, life cycle, resilience, sustainability and technological innovations of bridges. Major topics include advanced bridge design, construction and maintenance approaches, safety, reliability and risk evaluation, life cycle management, life cycle resilience, sustainability, standardization, analytical models, bridge management systems, service life prediction, structural health monitoring, non-destructive testing and field testing, robustness and redundancy, durability enhancement, repair and rehabilitation, fatigue and corrosion, extreme loads, needs of bridge owners, whole life costing and investment for the future, financial planning and application of information and computer technology, big data analysis and artificial intelligence for bridges among others. This volume provides both an up-to-date overview of the field of bridge engineering and significant contributions to the process of making more rational decisions on bridge safety, maintenance, management, life cycle, resilience and sustainability of bridges for the purpose of enhancing the welfare of society. The volume serves as a valuable reference to all concerned with and/or involved in bridge structure and infrastructure systems including students, researchers and practitioners from all areas of bridge engineering.
