Teachers Curriculum Institute Notebook Guide:

Book Steven Berbeco, 2011-08-19 Abstract In this study I propose a strong and innovative model of teaching that centers on the student and I report on the efficacy of this model using quantitative research procedures This model of teaching is systematized in the Marhaba curriculum a method of teaching first year high school Arabic that I designed tested and evaluated The Marhaba curriculum is founded on best practices and is a natural outgrowth of contemporary education theories including non linear curriculum design and multiple modality teaching materials that take into consideration students diverse learning styles Analysis of data indicates that use of the Marhaba curriculum positively influences student proficiency in Arabic In particular students become proficient regardless of a student s gender grade socioeconomic status or parent educational background Also student proficiency is not dependent on a student s attitude to learning or engagement in class or a student s attitude toward the curriculum

Visual Tools for Transforming Information Into Knowledge

David Hyerle, 2008-09-05 Helps teachers think about what they are doing in the classroom with graphic organizers and how they can use them more effectively Mark Johnson Principal Glenwood Elementary School Kearney NE With an emphasis on transforming information into knowledge everyone who considers themselves a learner or a facilitator of someone else s learning would benefit from the author s message and ideas Judith A Rogers Professional Learning Specialist Tucson Unified School District AZ Develop students thinking note taking and study skills with powerful visual tools Visual tools have the unique capacity to communicate rich patterns of thinking and help students take control of their own learning This second edition of A Field Guide to Using Visual Tools shows teachers of all grades and disciplines how to use these tools to improve instruction and generate significant positive changes in students cognitive development and classroom performance Expert David Hyerle describes three basic types of visual tools brainstorming webs that nurture creativity graphic organizers that build analytical skills and help process specific content and concept maps that promote cognitive development and critical thinking Updated with new research and applications for three kinds of Thinking Maps this essential resource Expands teacher skills with practical guides for using each type of tool Presents recent research on effective instructional strategies reading comprehension and how the brain works Includes templates examples and more than 70 figures that show classroom applications By utilizing these powerful brain compatible learning aids teachers can help students strengthen higher order thinking skills master content and conceptual knowledge and become independent learners

A Field Guide to Using
