**Binding the Absent Body in Medieval and Modern Art** Emily Kelley, 2017-07-05 This collection of essays considers artistic works that deal with the body without a visual representation It explores a range of ways to represent this absence of the figure from abject elements such as bodily fluids and waste to surrogate forms including reliquaries manuscripts and cloth The collection focuses on two eras medieval and modern when images referencing the absent body have been far more prolific in the history of art In medieval times works of art became direct references to the absent corporal essence of a divine being like Christ or were used as devotional aids By contrast in the modern era artists often

reject depictions of the physical body in order to distance themselves from the history of the idealized human form Through these essays it becomes apparent even when the body is not visible in a work of art it is often still present tangentially Though the essays in this volume bridge two historical periods they have coherent thematic links dealing with abjection embodiment and phenomenology Whether figurative or abstract sacred or secular medieval or modern the body maintains a presence in these works even when it is not at first apparent *Exploring the Body* Amanda Jean Unruh,2009 Life and Death Silvia Fok,2013 For all their ubiquity life and death have not been fully explored as integral themes in many forms of contemporary Chinese art Life and Death addresses that lacuna Exploring the strategies employed by a variety of Chinese artists who engage with these timeless concerns Silvia Fok opens a new line of inquiry about contemporary art in a rapidly changing environment Fok focuses in particular on the ways in which these artists use their own bodies animals bodies and other corporeal substances to represent life and death in performance art installations and photography Over the course of her investigations corporeality emerges as a common means of highlighting the social and cultural issues that surround these themes By assessing its effectiveness in the expression of life death and related ideas Fok ultimately illuminates the extent to which we can see corporeality as a significant trend in the history of contemporary art in China Her conclusions will fascinate scholars of performance and installation art photography and contemporary Chinese art **Body and Soul** Rachel Rosenfield Lafo,1994 **The Schools of Modern Art in Germany** J. Beavington Atkinson,Joseph Beavington Atkinson,1880 The Gallery of Contemporary Art Armand Silvestre,1884 Baroque Tendencies in Contemporary Art Kelly Ann Wacker,2007 Baroque Tendencies in Contemporary Art is a collection of essays by an international cadre of scholars addressing current trends within the field of contemporary art and how artists and architects reflect upon past traditions and fold them into the present Often referred to as the Neo Baroque scholarship on this topic first emerged in the 1980s with the publication of several notable studies in France but not translated into English until the 1990s in addition a number of recent exhibitions have focused on contemporary responses to the Baroque The Baroque and the Neo Baroque are frequently defined as having a propensity for instability seriality reflexivity fluidity and spectacle This is perhaps partly why in the millennial period there is so much interest in the Baroque we are seeking ways to find parallels between the art of then and the art of our own diverse pluralistic culture This book provides context for how contemporary artists meet and deal with the Baroque both formally and conceptually Among others it provides discussions of the work of American artists John Currin Jeff Koons Frank Stella Lisa Yuskavage American architect Frank Gehry European artists Lucian Freud Jenny Saville Emilio Vedova Latin American artists Monica Castillo Raphael Cauduro Yishai Judisman and New Zealand artists Richard Reddaway and Joanna Langford **The Visible and the Invisible** ,1996 *The Marked Body* Lydia Mazer,2007 **The Ideals and Tendencies of Modern Art** Edward Clarence Farnsworth,1917 **The Silent Rhetoric of the Body** Matthew Craske,2007 Matthew Craske looks closely at tomb sculptures in their social context He discusses a large number of
