**Collateral Damage** Sharon L. Nichols, David C. Berliner, 2007-03-01 Drawing on their extensive research Nichols and Berliner document and categorize the ways that high stakes testing threatens the purposes and ideals of the American education system For more than a decade the debate over high stakes testing has dominated the field of education This passionate and provocative book provides a fresh perspective on the issue and powerful ammunition for opponents of high stakes tests Their analysis is grounded in the application of Campbell's Law which posits that the greater the social consequences associated with a quantitative indicator such as test scores the more likely it is that the indicator itself will become corrupted and the more likely it is that the use of the indicator will corrupt the social processes it was intended to monitor Nichols and Berliner illustrate both aspects of this corruption showing how the pressures of high stakes testing erode the validity of test scores and distort the integrity of the education system Their analysis provides a coherent and comprehensive intellectual framework for the wide ranging arguments against high stakes testing while putting a compelling human face on the data marshalled in support of those

**Arizona's Instrument to Measure Standards (AIMS DPA). Student Guide. Grade 7**  
Arizona. DPA includes multiple choice questions in reading and mathematics and one extended writing response. The other test included in the AIMS DPA is the TerraNova which compares performance in reading language arts and mathematics to the performance of other students in the same grade level nationwide. The TerraNova test questions are all multiple choice questions. They are embedded in the reading and mathematics sections of the AIMS DPA test. Test items were written to measure specifically the Standards Concepts and Performance Objectives described in the Arizona Academic Standards. Standards were articulated by grade level for reading and mathematics and approved by the state Board of Education in March 2003. Reading and mathematics items are multiple choice. There are no multiple choice questions on the writing test. The Writing Standard was articulated by grade level and approved by the state Board of Education in June 2004. There is an extended writing prompt that students use to actively engage in the writing process. The student's writing is scored using the Six Trait Rubric™. This guide is divided into the three subject areas assessed on AIMS DPA. It gives a short explanation of each testing format, hints for test taking, sample test questions, and a scoring guide for written responses. It does not teach students what they should know and be able to do to score well on the tests, but it will help them become familiar with the tests. The sections of this guide are: 1. AIMS DPA FAQ, 2. Reading, 3. Writing, 4. Mathematics, 5. Scoring Keys, 6. Six Trait Writing Rubric, 7. AIMS DPA Mathematics Reference Sheet, 8.
