the translation of the tenses in the first ten or twelve Psalms to discover the shortcomings of the Revision and at the same
time to understand the difficulty and importance of the subject It may be said that notwithstanding the lack of American
grammars in this respect the existence of such works as those of Driver Ewald and Muller renders the publication of a new
treatment unnecessary But it will be remembered that Driver aside from his Appendices treats exclusively of the Tense the
most important of all syntactical subjects yet a single subject that Ewald's work the only philosophical treatment of the
subject can only be appreciated by one who has given much time and attention to Hebrew Syntax and that Muller's book is
brief obscure and unsatisfactory If a new text book has been needed in any department of linguistic study it is in that of
