Manual Arts and Crafts Helen MacPherson Thompson, 1965

Auto Racing in the Shadow of the Great War Robert Dick, 2019-02-21 From 1915 through the early 1920s American auto racing experienced rapid and exciting change. Competition by European vehicles forced American car manufacturers to incorporate new features resulting in legendary engineering triumphs and essentially works of art. Some of the greatest drivers in racing history were active during this time. Ralph DePalma, Dario Resta, Eddie Rickenbacker, the Chevrolet brothers, Jimmy Murphy. Presenting dozens of races in detail and a wealth of engineering specs, this history recalls the era's cigar-shaped speedway specials and monumental board tracks, the heavy-footed drivers, fearless mechanics, gifted engineers, and enthusiastic backers.

Work and Learning in Micro Car-repair Enterprises Harry van den Tillaart, Sjaak van den Berg, John Warmerdam, 1998 Work and learning in microenterprises in the car repair industries of four European Community EC countries were examined through 21 case studies of firms with 10 or fewer employees: 6 firms in Ireland and 5 each in Greece, the Netherlands, and Spain. Structured interviews were conducted with each firm's owner and 60 motor vehicle mechanics at the 21 firms. Firms were not selected randomly; rather, they were selected because of their active use of training to adapt their staff to technological, economic, and organizational change. The sample included franchise and nonfranchise firms. All 21 microfirms studied were simultaneously pursuing growth strategies and the strategy of specialization in networks. Of the 60 mechanics interviewed, 43 had initial vocational education for the sector. Except for the apprentices, all 43 mechanics participated in continuing training during the previous 3 years. Of the 17 mechanics with no initial training for the sector, 10 (59%) had participated in continuing training, and only 7 (41%) reported learning a great deal from that training. Many employees developed skills through incidental learning, including learning by solving problems individually or with colleagues, learning by regular rotation of tasks, and learning under the boss or an experienced worker. Contains 23 tables, figures. MN
