Eyerdam, 2003-03-30 Use the Internet to teach visual arts and refine students critical thinking skills This book is based on the Discipline Based Art Education program a proven art instruction program that teaches everything from the creative process and art history to criticism and aesthetics An abundance of primary source Web sites and background information is offered The main focus of the book is western art history and painting but examples of sculpture drawings prints and architecture are included along with a chapter on diversity Part I provides background material A brief history of art education is presented followed by a review of the components of design elements and principles The book describes using the Internet as a primary source by identifying and evaluating websites Part II follows the program through the main historical periods from prehistoric and ancient Middle Eastern art through the Renaissance through the 20th century A bibliography and index are included Virginia Woolf in Context Bryony Randall, Jane Goldman, 2012-12-17 As a paradigmatic modernist author Virginia Woolf is celebrated for the ways her fiction illuminates modern and contemporary life Woolf scholars have long debated how context whether historical cultural or theoretical is to be understood in relation to her work and how her work produces new insights into context Drawing on an international field of leading and emergent specialists this collection provides an authoritative resource for contemporary Woolf scholarship that explores the distinct and overlapping dimensions of her writings Rather than survey existing scholarship these essays extend Woolf studies in new directions by examining how the author is contextualised today The collection also highlights connections between Woolf and key cultural political and historical issues of the twentieth century such as avant gardism in music and art developments in journalism and the publishing industry political struggles over race gender and class and the bearings of colonialism empire and war *The Art of Painting: From the baroque through postimpressionism* Jacques Charpier, Pierre Seghers, 1964 *Art and Archaeology*, 1921 **The Culture of Yellow** Sabine Doran, 2013-09-26 This is the first book to explore the cultural significance of the color yellow showing how its psychological and aesthetic value marked and shaped many of the intellectual political and artistic currents of late modernity It contends that yellow functions during this period primarily as a color of stigma and scandal Yellow stigmatization has had a long history it goes back to the Middle Ages when Jews and prostitutes were forced to wear yellow signs to emphasize their marginal status Although scholars have commented on these associations in particular contexts Sabine Doran offers the first overarching account of how yellow connects disparate cultural phenomena such as turn of the century decadence the yellow nineties the rise of mass media yellow journalism mass immigration from Asia the yellow peril and mass stigmatization the yellow star that Jews were forced to wear in Nazi Germany The Culture of

China—Art—Modernity David Clarke, 2019-01-22 China Art Modernity provides a critical introduction to modern and contemporary Chinese art as a whole It illuminates what is distinctive and significant about the rich range of art created during the tumultuous period of Chinese history from the end of Imperial rule to the present day The story of Chinese art in the twentieth and twenty first centuries is shown to be deeply intertwined with that of the country's broader socio political development with art serving both as a tool for the creation of a new national culture and as a means for critiquing the forms that culture has taken The book's approach is inclusive In addition to treating art within the Chinese Mainland itself during the Republican and Communist eras for instance it also looks at the art of colonial Hong Kong Taiwan and the Chinese diaspora Similarly it gives equal prominence to artists employing tools and idioms of indigenous Chinese origin and those who engage with international styles and contemporary media In this way it writes China into the global story of modern art as a whole at a moment in intellectual history when Western centred stories of modern and contemporary culture are finally being recognized as parochial and inadequate Assuming no previous background knowledge of Chinese history and culture this concise yet comprehensive and richly illustrated book will appeal to those who already have an established interest in modern Chinese art and those for whom this is a novel topic It will be of particular value to students of Chinese art or modern art in general but it is also for those in the wider reading public with a curiosity about modern China At a time when that country has become a major actor on the world stage in all sorts of ways accessible sources of information concerning its modern visual culture are nevertheless surprisingly scarce As a consequence a fully nuanced picture of China's place in the modern world remains elusive China Art Modernity is a timely remedy for that situation Here is a book that offers a comprehensive account of the dizzying transformations of Chinese art and society in the twentieth and twenty first centuries Breaking free of conventional dichotomies between traditional and modern Chinese and Western that have hobbled earlier studies Clarke's highly original book is exactly what I would assign my own students Anyone eager to understand developments in China within the global history of modern art should read this book Robert E Harrist Jr Columbia University Clarke's book presents a critically astute mapping of the arts of modern and contemporary China It highlights the significance of urban and industrial contexts migration diasporas and the margins of the mainland while imaginatively seeking to inscribe its subject into the broader story of modern art A timely and reliable intervention and indispensable for the student and non specialist reader Shane McCausland SOAS University of London
