Rittenhouse, 1982 [The Christian Advocate](#), 1917 **Awakening the Sleeping Giant** Rob Burkhart, 2003 Awakening the Sleeping Giant is designed to help churches revitalize the ministry of Sunday School and to more effectively see students transformed by the Holy Spirit and the Word of God It isn t about a fresh coat of paint it s about optimizing Sunday School from the ground up from the way it s perceived to how its implemented

The Challenges of Integrating Religion and Spirituality into Psychotherapy Francis A. Martin, 2024-04-23 This book examines personal and professional understandings of religion in psychotherapy and advocates for integrity competency and cultural pluralism in clinical practice A major feature of this book is that it confirms the massive proliferation of religion oriented approaches to counseling and therapy in recent years It attributes this rise to opportunism and exaggerated individualism among therapists and to the frequent failures of professional associations clinical preparation programs and other influences In response to these influences it identifies the need for guiding principles for integrating religion into therapy discusses the religious issues that clients bring to therapy and advocates for major changes in clinical practice with emphasis on integrity and competence Building on a large volume of research and using evidence based conclusions it clarifies how these two major features of contemporary life can be integrated with integrity and competence The author maintains that religion should be a feature of the practice of counseling and therapy so long as it addresses the clinically relevant needs of clients However it also explores how the religion of counselors and therapists often expresses the needs of counselors and therapists instead of addressing the needs of their clients In the context of these questions and discussion of contentious challenges this book provides guidelines for relating religion with clinical practice and recommends needed actions by clinical preparation programs professional associations individual therapists state legislatures licensing boards social service agencies and corporations All of this stands on the conspicuous need for professional accountability in the delivery of mental health care

Therapy Thieves Francis A. Martin, 2020-03-13 Why are we practicing counselors and

psychotherapists committed to failure This is the question that has haunted Dr Francis Martin as he has cataloged well over 20 000 distinct psychotherapy approaches advertised on the websites of licensed mental health professionals No doubt some of these are harmful most of them ineffective and many simply made up but the sheer volume of such techniques and practices advertised by licensed professionals holding advanced degrees whose services are billed to clients and insurance companies calls the credibility of the entire mental health profession into question Based on significant original research that joins research from others this book describes a near universal crisis in mental health care and recommends ways to rescue the field from itself The crisis is caused by declining competence among counselors and psychotherapists who have failed to regulate themselves and who therefore deliver inadequate if not harmful services The book calls for major specific and urgently needed reforms
