is really that straightforward. It's about connecting content and kids. High-quality learning should be the outcome of classrooms in which teachers consistently ask these essential questions: "How can I get to know my students and their needs?" "What is most important and enduring for my students to learn about this topic?" "How can I ensure that each of my students learns as effectively and efficiently as possible?" "How will I know if my students have learned what matters most?" The two models fuse to help educators meet the goal of **Connecting Content and Kids** and to guide the professional growth of teachers who wish to develop the skills needed to answer these questions more fully through their practice.
