**Introduction to Information Systems** R. Kelly Rainer, Casey G. Cegielski, 2010-04-12 Information technology professionals will gain invaluable information with this updated resource on how to connect concepts to key business areas. These areas include accounting, finance, marketing, management, human resources, and operations. The new edition provides concise and accessible coverage of core IT topics. Do It Yourself activities show them how to apply the information on the job. Technology professionals will then be able to discover how critical IT is to each functional area and every business.

Strategic Information Systems: Concepts, Methodologies, Tools, and Applications Hunter, M. Gordon, 2009-08-31 This 4 volume set provides a compendium of comprehensive advanced research articles written by an international collaboration of experts involved with the strategic use of information systems. Provided by publisher **Online and Distance Learning:**

**Concepts, Methodologies, Tools, and Applications** Tomei, Lawrence A., 2007-07-31 This comprehensive six volume collection addresses all aspects of online and distance learning including information communication technologies applied to education, virtual classrooms, pedagogical systems, Web based learning, library information systems, virtual universities, and more. It enables libraries to provide a foundational reference to meet the information needs of researchers, educators,

practitioners, administrators, and other stakeholders in online and distance learning. Provided by publisher Modernizing Academic Teaching and Research in Business and Economics Jorge Marx Gómez, Marie K. Aboujaoude, Khalil Feghali, Tariq Mahmoud, 2017-04-25 This proceedings volume brings together the results of a corporate discussion on research, academic teaching, and education in the field of business and economics in the context of globalization. The contributions examine leadership and sustainability, quality and governance, and the internationalization of higher education. With a particular focus on business education and business schools, the book discusses the labor market and modernization, as well as contemporary trends and challenges. By including both academic papers and contributions from industry, it forges research links between academia, business, and industry. **Information Management: Support Systems & Multimedia Technology** Ditsa, George, 2003-01-01 Geared for managers and business practitioners operating in a web-centric environment, this text presents the most current research on information management in conjunction with support systems and multimedia technology. The useful models of decision making provided incorporate cooperative information processing, knowledge-based personalizations, and intelligent transportation systems. Electronic journalism, distance learning, and activity theory are also covered.
