Loose-leaf Version Introduction to Managerial Accounting Peter Brewer, Ray Garrison, Eric Noreen, 2009-12-14

Introduction to Managerial Accounting 5e by Brewer Garrison Noreen is based on the market leading text Managerial Accounting by Garrison Noreen and Brewer. However, this is not simply a briefer book with chapters removed. Brewer 5e has been rethought and retooled to meet the needs of the market. Brewer 5e is a more accessible yet thoroughly student-friendly text that satisfies the basic needs of the managerial accounting student without unnecessary depth on advanced topics associated with the follow-up course: cost accounting, cost management. Faculty and students alike will find this new edition has retained the hallmark features of the Garrison brand: author-written supplements, excellent readability, terrific examples, and balanced end-of-chapter material.

Introduction to Managerial Accounting Peter C. Brewer, Ray H. Garrison, Eric W. Noreen, 2018

Brewer's Introduction to Managerial Accounting has earned a reputation as the most accessible and readable book on the market. Its manageable chapters and clear presentation point students toward understanding just as the needle of a compass provides direction to travelers. However, the book's authors also understand that everyone's destinations are different. Some students will become accountants, while others are destined for careers in management, marketing, or finance. Not only does the Brewer text teach students managerial accounting concepts in a clear and concise way, but it also asks students to consider how the concepts they're learning will apply to the real-world situations they will eventually confront in their careers. This combination of conceptual understanding and the ability to apply that knowledge directs students toward success whatever their final destination happens to be.
