Mazda F Engineering Management:

Engineering Management Fraidoon Mazda,1997 There can be few modern feats of engineering achievement that surpass the great pyramids of Ancient Egypt The sheer scale of the technological and physical challenge facing the creators of these superstructures was immense The management skills demanded of those early engineers were equally impressive The desires of the customers the Pharaohs had to be fulfilled while coordinating controlling and monitoring the subcontractors the artisans and the employees the slaves as well as ensuring the optimum use of material resource Engineering management is no simpler today and both new and experienced engineers find it difficult to come to terms with this non technical subject Fraidoon Mazda s book provides an accessible and comprehensive guide to management that will be useful for students new managers and experienced engineers alike Using a fictional company as a case study throughout the text theory is repeatedly related to practice providing a realistic picture of modern engineering industry All the management functions that are part of a medium or large sized organization are covered from basic people skills to business strategy decision making financial management project management manufacturing operations marketing and sales Whether you are a student undertaking a course on management or a professional engineer needing some practical advice Engineering Management provides the answers you are looking for Had the engineering managers of the Egyptian pyramids been able to use this book their life would probably have been made a lot easier Key Features is written in an accessible but authoritative style is relevant to any engineering discipline provides practical advice on management in industry covers both numerical and behavioural topics Engineering Management Ching Ming Chang,2005 This easy to read book prepares engineers to fulfill their managerial responsibilities acquire useful business perspectives and take on the much needed leadership roles to meet the challenges in the new millennium The book is organized in three parts Part I reviews the basic functions of engineering management Part II provides backgrounds in cost accounting financial analysis financial management and marketing management and Part III readies the reader for exercising leadership in managing technologies through discussions related to engineers as managers leaders ethics web based tools globalization and engineering management in the decades to come For engineering professionals who have an interest in becoming managers and or leaders in their field
