Projections Jared Gardner, 2012-01-11 A fascinating read for anyone with an interest in the graphic novel its origins and its continuing evolution as a literary art form Midwest Book Review When Art Spiegelman's *Maus* won the Pulitzer Prize in 1992 it marked a new era for comics Comics are now taken seriously by the same academic and cultural institutions that long dismissed the form And the visibility of comics continues to increase with alternative cartoonists now published by major presses and more comics based films arriving on the screen each year *Projections* argues that the seemingly sudden visibility of comics is no accident Beginning with the parallel development of narrative comics at the turn of the 20th century comics have long been a form that invites indeed requires readers to help shape the stories being told Today with the rise of interactive media the creative techniques and the reading practices comics have been experimenting with for a century are now in universal demand Recounting the history of comics from the nineteenth century rise of sequential comics to the newspaper strip through comic books and underground comix to the graphic novel and webcomics Gardner shows why they offer the best models for rethinking storytelling in the twenty first century In the process he reminds us of some beloved characters from our past and present including Happy Hooligan Krazy Kat Crypt Keeper and Mr Natural Provocative examines the progress of the form from a variety of surprising angles Jonathan Barnes Times Literary Supplement A landmark study Charles Hatfield California State University Northridge author of *Alternative Comics An Emerging Literature* A succinct and savvy cultural history of American comics Hillary Chute University of Chicago *What Is Your Quest?* Anastasia Salter, 2014-11-01 *What Is Your Quest* examines the future of electronic literature in a world where tablets and e readers are becoming as common as printed books and where fans are blurring the distinction between reader and author The construction of new ways of storytelling is already underway it is happening on the edges of the mainstream gaming industry and in the spaces between media on the foundations set by classic games Along these margins convergent storytelling allows for playful reading and reading becomes a strategy of play One of the earliest models for this new way of telling stories was the adventure game the kind of game centered on quests in which the characters must overcome obstacles and puzzles After they fell out of fashion in the 1990s fans made strenuous efforts to keep them alive and to create new games in the genre Such activities highlight both the convergence of game and story and the collapsing distinction between reader and author Continually defying the forces of obsolescence fans return abandoned games to a playable state and treat stories as ever evolving narratives Similarly players of massive multiplayer games become co creators of the game experience building characters and creating social networks that recombine a reading and gaming community The interactions between storytellers and readers between programmers and creators and among fans turned world builders are essential to the development of innovative ways of telling stories And at the same time that fan activities foster the convergence of digital gaming and storytelling new and increasingly accessible tools and models for interactive narrative empower a broadening range of storytellers It is precisely this interactivity among a range of users surrounding these new platforms that is radically

reshaping both the books and games and those who read and play with them **Almost Sunset** Wahab Algarmi, 2025-02-18 In a contemporary middle grade graphic novel debut that Gene Luen Yang calls funny, endearing, and an intimate look at a Muslim family, *Almost Sunset* follows a young Muslim American boy during Ramadan as he finds the balance between his family traditions and his secular middle school life. Perfect for fans of *Swim Team* and *Chunky*, it's almost sunset and Hassan has been dreaming about eating since the sun came up. The month of Ramadan has begun, and not eating until sundown intensifies his already busy days full of homework, soccer, and gaming. And since his teachers and friends at school barely understand Ramadan and its traditions, it's easier to just not mention it. As the month stretches on, Hassan's family and community grow closer together. They wake up before sunrise every morning, feast when the sun goes down, and attend mosque in the evenings. Can Hassan balance it all during the hectic holy month: faith, tradition, school, and fun too?
