AI In Everyday Life 2026 Guide

Wolfgang Guggemos

AI In Everyday Life 2026 Guide:

What Is Artificial Intelligence in 2026? Ayaz K., 2026-01-16 Artificial Intelligence is no longer a future concept it is part of everyday life This educational book explains what Artificial Intelligence is in 2026 how it works and how people interact with AI systems today It is written for complete beginners with no technical background Inside this book you will learn What Artificial Intelligence really means How AI systems learn and make decisions The difference between AI machine learning and automation Where AI is used in daily life and business Common myths and misunderstandings about AI The ethical and responsible use of AI This book does not require coding knowledge or technical experience It is designed as a clear simple and practical introduction to Artificial Intelligence Perfect for students beginners and anyone who wants to understand AI from zero in the modern world

Handbook of Research on Equity in Computer Science in P-16 Education Keengwe, Jared, Tran, Yune, 2020-11-13 The growing trend for high quality computer science in school curricula has drawn recent attention in classrooms With an increasingly information based and global society computer science education coupled with computational thinking has become an integral part of an experience for all students given that these foundational concepts and skills intersect cross disciplinarily with a set of mental competencies that are relevant in their daily lives and work While many agree that these concepts should be taught in schools there are systematic inequities that exist to prevent students from accessing related computer science skills The Handbook of Research on Equity in Computer Science in P 16 Education is a comprehensive reference book that highlights relevant issues perspectives and challenges in P 16 environments that relate to the inequities that students face in accessing computer science or computational thinking and examines methods for challenging these inequities in hopes of allowing all students equal opportunities for learning these skills Additionally it explores the challenges and policies that are created to limit access and thus reinforce systems of power and privilege The chapters highlight issues perspectives and challenges faced in P 16 environments that include gender and racial imbalances population of growing computer science teachers who are predominantly white and male teacher preparation or lack of faculty expertise professional development programs and more It is intended for teacher educators K 12 teachers high school counselors college faculty in the computer science department school administrators curriculum and instructional designers directors of teaching and learning centers policymakers researchers and students
