Handbook of Medical Aspects of Disability and Rehabilitation for Life Care Planning Virgil May III, Richard Bowman, Steven Barna, 2024-05-21 This textbook is an essential resource for life care planners in understanding and assessing a range of medical disabilities life care planning as a health care service delivery practice certification under the International Commission on Health Care Certification and the path to rehabilitation for mild to catastrophic injuries Written by a team composed of expert physicians and doctoral level practitioners the book covers the key areas of traumatic injury and resultant disability that life care planners so often face From acquired brain injury and spinal disorders to amputation chronic pain posttraumatic debilitating headaches and plastic reconstructive surgery the book provides a road map not only to the treatment options available but also the strategies that can lead to rehabilitation and a possible return to work Each chapter also discusses possible complications allowing a holistic perspective on each issue Also including chapters on medical cost projection analysis and functional capacity evaluation this is the complete text for both professionals in the fields of rehabilitation services and life care planning as well as students training to qualify **Rehabilitation of the Spine**

Craig Liebenson, 2007 The foremost authorities from chiropractics orthopaedics and physical therapy present a practical overview of spinal rehabilitation This clinical resource presents the most current and significant spinal rehab information showing how to apply simple and inexpensive rehabilitation in the office The updated Second Edition includes clinical regional protocols and chapters on diagnostic triage acute care functional assessment recovery care outcomes and biopsychosocial aspects A bonus DVD offers demonstrations of key therapies and procedures **Physical Rehabilitation's Role in Disability Management**

David W. Clifton, 2005 Bridging the gap between clinical practice and real world interaction this new resource challenges rehabilitation providers to think beyond treatment to disability management It provides the theories and knowledge needed to effectively manage patients disabilities within a managed care framework with the goal of better collaboration with claims adjusters case managers risk managers human resource personnel safety and health officers attorneys peer reviewers and others in the health care system Highly visual and packed with useful information it provides an excellent introduction to the wide variety of interested parties with whom a therapist will interact in the course of managing a client s health The author has more than 23 years of experience consulting with insurance companies employers and the legal sector and offers proven strategies for collaboration between providers and others involved with the health care system Filled with numerous illustrations graphics and tables many of which are useful for training and education of staff or clients The appendix contains a large and diverse collection of helpful information that is not readily available from other sources It also provides an essential list of resources for further reading about this constantly changing field Chapters cover theoretical issues management models definitions of disability as well as disability management in long term care worker s compensation outcomes management legal implications and more Case studies

throughout the book present realistic examples of situations to improve the reader's technical and critical thinking skills Focused on managing disabilities i.e. functional problems rather than on treating impairments i.e. diseases encouraging rehabilitation providers to think out of the box and to position themselves better within and beyond managed care
