

Chapter 29 Reflection and Refraction

Exercises

29.1 Reflection (page 579)

1. What usually happens when a wave reaches a boundary between two media?

Some or all of the wave bounces back into the first medium.

2. The return of a wave back to its original medium is called reflection.

3. Explain what happens when a spring is attached to a wall and you send a pulse along the spring's length.

The wall is very rigid compared to the spring. So, all the wave energy is reflected back along the spring rather than transmitted into the wall.
