

# White Paper Creation Processes

Easy Steps to Create Effective White Papers for Your  
Businesses

## Preparation

As one of the most important steps in your white paper creation process, preparation stage is when you clearly identify target readers and white paper objectives.

- Your target readers (who will read your white paper? what do they get after reading your white paper?)
- Your white paper objectives (what do you want to get from this white paper? what action do you want your readers to take?), the list can go on and on.

Prepare flying to your  
targets

**The New Walford Guide to Reference Resources** Ray Lester, 2005

The New Walford highlights the best resources to use when undertaking a search for accurate and relevant information, saving you precious time and effort. For those looking for a selective and evaluative reference resource that really delivers on its promise, look no further. In addition to print sources, The New Walford naturally covers an extensive range of e reference sources such as digital databanks, digital reference services, electronic journal collections, meta search engines, networked information services, open archives, resource discovery services and websites of premier organizations in both the public and private sectors. But rather than supplying a list of all available known resources as a web search engine might, The New Walford subject specialists have carefully selected and evaluated available resources to provide a definitive list of the most appropriate and useful. With an emphasis on quality and sustainability, the subject specialists have been careful to assess the differing ways that information is framed and communicated in different subject areas. As a result, the resource evaluations in each subject area are prefaced by an introductory overview of the structure of the relevant literature. This ensures that The New Walford is clear, easy to use and intuitive.
