Tinker,David Eugene Wilkins,2003 Native peoples of North America still face an uncertain future due to their unstable political legal and economic positions Views of their predicament continue to be dominated by non Indian writers In response a dozen Native American writers here reclaim their rightful role as influential voices in debates about Native communities These scholars examine crucial

issues of politics law and religion in the context of ongoing Native American resistance to the dominant culture They particularly show how the writings of Vine Deloria Jr have shaped and challenged American Indian scholarship in these areas since 1960s They provide key insights into Deloria s thought while introducing some critical issues confronting Native nations Collectively these essays take up four important themes indigenous societies as the embodiment of cultures of resistance legal resistance to western oppression against indigenous nations contemporary Native religious practices and Native intellectual challenges to academia Essays address indigenous perspectives on topics usually treated by non Indians such as role of women in Indian society the importance of sacred sites to American Indian religious identity and relationship of native language to indigenous autonomy A closing essay by Deloria in vintage form reminds Native Americans of their responsibilities and obligations to one another and to past and future generations This book argues for renewed cultivation of a Native American Studies that is more Indian centered **Future West** William Henry Katerberg,2008 What is the future of the American West This book look at works of utopian dystopian and apocalyptic science fiction to show how narratives of the past and future powerfully shape our understanding of the present day West **Book Review Digest** ,1980

Democratic Left ,1984 The Roots of Contemporary Imperialism Valerio Volpi,2009-07-16 The Roots of Contemporary Imperialism argues that the presence of George W Bush and the issues that accompanied his presidency such as popular repression and business domination are not the result of an authoritarian regression of U S politics but rather represent the continuation of an approach that came into existence during the age of the Founding Fathers The creation of the federal presidential republic whose main purpose was not as much to preserve the balance of power between the various branches of government as to hinder any radical changes in society shows how the Fathers main concern was not people s freedom but to devise constitutional mechanisms intended to defend the properties wealth and privileges of economic elites In the author s view Barack Obama s recent election as the nominee of one of the two wings of the single business party despite the rhetoric about change and hope followed exactly the same pattern New Statesman Society ,1995 New Statesman ,2003
