Structure and Change in Indian Society Milton B. Singer, Bernard S. Cohn, Recent theoretical and methodological innovations in the anthropological analysis of South Asian societies have introduced distinctive modifications in the study of Indian social structure and social change This book reporting on twenty empirical studies of Indian society conducted by outstanding scholars reflects these trends not only with reference to Indian society itself but also in terms of the relevance of such trends to an understanding of social change more generally The contributors demonstrate the adaptive changes experienced by the studied groups in particular villages towns cities and regions The authors view the basic social units of joint family caste and village not as structural isolates but as intimately connected with one another and with other social units through social and cultural networks of various kinds that incorporate the social units into the complex structure of Indian civilization Within this broadened conception of social structure these studies trace the changing relations of politics economics law and language to the caste system Showing that the caste system is dynamic with upward and downward mobility characterizing it from pre British times to the present the studies suggest that the modernizing forces which entered the system since independence parliamentary democracy universal suffrage land reforms modern education urbanization and industrial technology provided new opportunities and paths to upward mobility but did not radically alter the system The chapters in this book show that the study of Indian society reveals novel forms of social structure change They introduce methods and theories that may well encourage social scientists to extend the study of change in Indian society to the study of change in other areas Milton Singer 1912 1994 was Paul Klapper Professor of Social Sciences and professor of anthropology at the University of Chicago He was a fellow of the Academy of Arts and Sciences He was also chosen as a distinguished lecturer by the American Anthropological Association and was the recipient of the Distinguished Scholar Award of the Association for Asian Studies Bernard S Cohn 1918 2003 was Professor Emeritus of Anthropology at the University of Chicago He was widely known for his work on India during the British colonial period and wrote many books on the subject of India including *India The Social Anthropology of a Civilization* 1971 *An Anthropologist among the Historians and Other Essays* 1987 and *Colonialism and its Forms of Knowledge* 1996

Contradictions and Conflict Donald V. Kurtz, 1993-12-31 Contradictions in an Indian university s caste institutional and regional structures have impelled scholars as political agents to conflict for over forty years This work demonstrates the value of a subject oriented dialectical political anthropology for analyzing political conflict and historical agency

The Myth of the Lokamanya Richard I. Cashman, 2018-09-25 Lokamanya revered leader Bal Gangadhar Tilak 1856 1920 the extremist politician of Maharashtra a region of western India was one of the first Congress Party leaders to adopt the strategy of mass politics Interpretations of his role and his achievement differ greatly Some historians depict Tilak as India s first mass politician

who was a creative nationalist myth maker other suggest that he was an opportunist who manipulated politics for selfish elitist purposes With an eye to resolving these conflicting opinions Cashman related Tilak s ideology to his political organization the author concentrates on four mass movements studying the Lokamanya when he was engaged in political action and comparing his public statements with his political tactics This approach provides a means of examining the manner in which Tilak redefined myths and of assessing the value of myths for purposes of political mobilization Cashman suggests deficiencies in previous interpretations of Tilak Arguing that the limitations of the mass movements need not be explained by the inadequacies of myths he demonstrates that instead they reflected the transitional state of Maharashtraian society which lacked a broad consensus Tilak was active at a time when there was no common goal no broader objective in which sectional interests might be subsumed He symbolized the uncertain striving of his society for some new direction whose nature was yet unknown He did not create the myth of the Lokamanya or the ideology of nationalism but responding to social and political pressures became a prisoner of the myths Much writing of Indian history has been influenced either by a narrow ideological approach or by a retreat to arithmetical pragmatism Cashman attempts to restore a balance by reexamining the relationship of myth to politics This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1975

Hindutva and Violence Vinayak Chaturvedi,2022-09-01 Examines the place of history in the political thought of Vinayak Damodar Savarkar one of the key architects of modern Hindu nationalism Hindutva and Violence explores the place of history in the political thought of Vinayak Damodar Savarkar 1883 1966 the most controversial Indian political thinker of the twentieth century and a key architect of Hindu nationalism Examining his central claim that Hindutva is not a word but a history the book argues that for Savarkar this history was not a total history a complete history or a narrative history Rather its purpose was to trace key historical events to a powerful source the font of motivation for chief actors of the past who had turned to violence in a permanent war for Hindutva as the founding principle of a Hindu nation At the center of Savarkar s writings are historical characters who not only participated in ethical warfare against invaders imperialists and conquerors in India but also became Hindus in acts of violence He argues that the discipline of history provides the only method for interpreting Hindutva The book also shows how Savarkar developed his conceptualization of history as a way into the meaning of Hindutva Savarkar wrote extensively from analyses of the nineteenth century to studies of antiquity to draw up his histories of Hindus He also turned to a wide range of works from the epic tradition to contemporary social theory and world history as his way of explicating Hindutva and history By examining Savarkar s key writings on history historical methodology and historiography Vinayak Chaturvedi provides an interpretation of the philosophical underpinnings of

Hindutva Savarkar's interpretation of Hindutva he demonstrates requires above all grappling with his idea of history
