Codex Lev Grossman:

Codex, 2013 Edward Wozny a hot shot young banker is sent to help one of his firm's most important and mysterious clients. When asked to uncrate and organise a personal library of rare books Edward's initial indignation turns to intrigue as he realises that among the volumes there may be hidden a unique medieval codex a priceless bound manuscript that has been kept sealed away for many years and for many reasons Edward's intrigue becomes obsession that only deepens as friends draw him into a peculiar and addictive computer game and mystifying parallels begin to emerge between the game's virtual reality and the legend of the codex.
