

300 creative writing prompts for kids

Imagine a giant box is delivered to your front doorstep with your name on it. What's inside and what happens when you open it?

Write a short story about what it might be like if you woke up one morning with a mermaid tail.

Write about what would it be like if you had an alligator as a pet.

If you were in charge of the whole world, what would you do to make the world a happier place?

Imagine that dogs take over the world. What do they make the humans do?

Write about 3 places you would like to travel someday. What do these three places have in common?

Write a poem that starts with the word "if".

How do you feel when someone takes something of yours without asking? What is a good way to deal with it when that happens?

Imagine you walk out your front door one morning and it is raining popcorn! What do you do?

Teaching with Tablets

Helen Caldwell, James Bird, 2015-03-19 The presence of handheld technologies in the classroom isn't enough you need to know how to use them to enhance teaching and transform learning As more and more primary schools acquire devices such as iPads and tablets it is becoming clear that

adding them as a classroom resource is not enough Teachers and trainees need strategies to integrate these into existing learning contexts in a meaningful way Without this these fantastic resources lose their value This book helps teachers to make the most of these devices in the primary classroom It offers guidance on how to use tablets to devise meaningful learning activities embed them in genuine curriculum contexts drawing upon case studies from existing practice It is written for non specialists and explains technical terms in an accessible practical way Each chapter begins with a case study contributed by a teacher using tablets in schools Real life examples and comments like this give the text a truly practical focus The book s Pinterest board includes the apps mentioned in the book as well as a handy infographic for a snapshot guide on starting off your tablet teaching journey A note from the authors The use of technology in schools continues to evolve rapidly as new devices and tools become available and the adoption of mobile devices such as iPads and tablets has been a particularly exciting development in recent years The benefits offered by these technologies such as their portability connectivity accessibility and range of media present new challenges and opportunities for teaching and learning As the take up of tablets gathers pace in our schools there is a need for advice on the best approaches and apps to help achieve successful learning outcomes Teachers need to find meaningful ways to integrate the devices into their own practice and to evaluate which of the many thousands of educational apps might be appropriate for their pupils This book considers how iPads and tablets can be used to enhance teaching and learning in primary schools It is especially relevant in the light of the computing curriculum which puts a new emphasis on children as makers and creators of digital content Across other curriculum subjects too the introduction of mobile devices that can be quickly and reliably accessed has precipitated a shift in practice For example they have enabled teachers and children to spontaneously pursue lines of inquiry to connect collaborate and publish in many different ways and to use their digital skills to enhance their exploration of the physical world outside the classroom With these opportunities in mind we offer anecdotes from the classroom and examples of how tablets might be embedded within current pedagogy and practice as a natural learning tool Each chapter combines a practical case study with discussion of related pedagogy and recommends apps to support a personalised inclusive and active approach to teaching and learning
