| <p><b>Course Objectives:</b><br/> The objective of the course is to provide an intermediate course on Game Theory. Game theory is the science of strategy. It attempts to determine mathematically and logically the actions that "players" would take to secure the best outcomes for themselves in a wide array of "games." Game Theory can be used to analyse the possible outcomes of situations ranging from card games and sports to strategic price fixing, negotiation, group cooperation. Students will learn to recognize strategic environments and to use Game Theory to gain a better understanding of interactions and outcomes within them.</p> <p>Many of the applications that we will cover will be in the area of economics and management. However, the theory has been successfully applied to sociology, biology, medicine, political science, and many other fields, and in the presentations students are encouraged to look at applications in virtually any of the above areas.</p> |   |             |         |
