The Arab Awakening Kenneth M. Pollack, Daniel L. Byman, Akram Al-Turk, 2011-10-01 Even the most seasoned Middle East observers were taken aback by the events of early 2011. Protests born of oppression and socioeconomic frustration erupted throughout the streets, public unrest provoked violent police backlash, long established dictatorships fell. How did this all happen? What might the future look like and what are the likely ramifications for the United States and the rest of the world? In *The Arab Awakening*, experts from the Brookings Institution tackle such questions to make sense of this tumultuous region that remains at the heart of U.S. national interests. The first portion of *The Arab Awakening* offers broad lessons by analyzing key aspects of the Mideast turmoil such as public opinion trends within the Arab Street, the role of social media and technology, socioeconomic and demographic conditions, the influence of Islamists, and the impact of the new political order on the Arab-Israeli peace process. The next section looks at the countries themselves, finding commonalities and grouping them according to the political evolutions that have or have not occurred in each country. The section offers insight into the current situation and possible trajectory of each group of countries, followed by individual nation studies. *The Arab Awakening* brings the full resources of Brookings to bear on making sense of what may turn out to be the most significant geopolitical movement of this generation. It is essential reading for anyone looking to understand these developments and their consequences.

The Global Jihad Movement Rohan Gunaratna, Aviv Oreg, 2015-07-01 Three to four dozen international and local organizations, up to one hundred thousand individuals, and millions of supporters are part of the phenomenon of Global Jihad. The Global Jihad Movement endeavors to name and differentiate these organizations and to explain their infrastructure, operational capabilities, and activities. It also analyzes their mutual and multi-lateral relations inside and outside the jihadi framework. In essence, this is a who's who in the Global Jihad. The first section deals with ideology, focusing on the emergence of the Salafi and the Salafi jihadi ideologies, which are still the most important factors behind the operational performance of Global Jihadi elements. The second section addresses the affiliate groups of al-Qaeda, such as al-Qaeda in the Arabian Peninsula, al-Qaeda in the Islamic Maghreb, and al-Qaeda in Iraq. This section focuses mainly on the groups that adopted al-Qaeda's Global Jihad strategy by incorporating Western targets in their vicinity of operations in their targeting policies. The next section discusses the different jihad arenas that have emerged over the last three decades, absorbing jihadi fighters from Islamic communities around the world. Finally, the last section examines the long process of radicalization, from regular and normative lifestyle patterns to the final jihadi stage, which in many cases involves martyrdom as suicide bombers in the name of radical Islam.

City of Widows Haifa Zangana,2011-01-04 In City of Widows Haifa Zangana tells the story of her country from the early twentieth century through the US UK invasion and the current occupation She brings to light a sense of Iraq as a society mainly of secularists who have been denied through years of sanctions war and occupation a system within which to build the country according to their own values She points to the long history of political activism and social participation of Iraqi women and the fact that before the recent invasion they had been among the most liberated of their gender in the Middle East Finally she writes about Baghdad today as a city populated by bereaved women and children who have lost their loved ones and their land but who are still emboldened by the native right to resist and liberate themselves to create an independent Iraq
