DECISION TREES AND RULES

LEARNING OF DECISION TREES: ID3

- ID3 (Iterative Dichotomiser, Quinlan, 1980)
- Based on GLS (classification)
 - only binary attributes
 - heuristic to decide what attribute to choose in each node of the tree
- Set of techniques with commercial success
- Generate decision trees from training examples
- Idea: find the simplest tree that best separates the examples
- Use a heuristic based on entropy to choose the attributes

DECISION TREE EXAMPLE

STRATEGY OF ID3

ALGORITHM

1. Select an attribute A_i that maximizes the information gain $G(A_i)$
2. Create a node for such attribute with as many successors as different values the attribute has
3. Distribute the training examples in the successors, using the value for attribute A_i
4. For each successor: if there's only examples of one class C_k , then label the node with C_k ; otherwise, call ID3 with a table made up of the examples of the node, erasing the column of attribute A_i

researchers strongly supported the organization of a major scientific event about machine learning and data mining in Europe. We are happy to provide some statistics about the conferences: 581 different papers were submitted to ECML/PKDD about a 75% increase over 2003; 280 were submitted to ECML 2004 only, 194 were submitted to PKDD 2004 only, and 107 were submitted to both. Around half of the authors for submitted papers are from outside Europe, which is a clear indicator of the increasing attractiveness of ECML/PKDD. The Program Committee members were deeply involved in what turned out to be a highly competitive selection process. We assigned each paper to 3 viewers, deciding on the appropriate PC for papers submitted to both ECML and PKDD. As a result, ECML PC members reviewed 312 papers and PKDD PC members reviewed 269 papers. We accepted for publication regular papers 45 for ECML 2004 and 39 for PKDD 2004, and short papers that were associated with poster presentations 6 for ECML 2004 and 9 for PKDD 2004. The global acceptance rate was 14.5% for regular papers, 17% if we include the short papers.
