*Structuring Time (Second Edition)* Michael Betancourt, 2009-05-01 A NEW KINETIC ART This book presents a new approach to the conceptual basis of all visual art and while it is about making movies the catch all for video film computer graphics and anything else

that may appear to move the thrust of this book is a radical redefinition of all visual media including traditional standards like painting The framework these notes propose is a way of thinking about visual art that eliminates all former media in favor of a division based on our ability to see movement or change in a work of art While most movies change and move rapidly this understanding is equally concerned with the very slow or apparently immobile Revised and Expanded Second Edition
