*Teacher Training Essentials* Craig Thaine,2010-10-21 The essential resource for new and experienced teacher trainers

**Teacher Training Essentials** Ruth Clark,2018-02-02 Teacher training is the skill and knowledge that is imparted to teachers in order to make them more effective and efficient in their profession This book on teacher training discusses all the essential topics that fall under this field Teacher training equips the teacher with skills that would enable them to perceive a student s educational development Familiarity with curricula and syllabi that promote the overall development of the child is fundamental for effective transmission of knowledge Interactive sessions with students through the implementation of e technology is also emphasized in this field This book with its detailed information will prove immensely beneficial to students involved in this area at various levels It will provide comprehensive knowledge to the readers Teacher-Training Essentials Henry Edward Tralle,2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1914 edition Excerpt LESSON I LEARNING FROM OTHERS Exper1ence is the best teacher The wise man is constantly learning from his own experience But he does not limit himself to his own necessarily restricted experience lest he become narrow He uses the results of the experiences of others The progressive Sunday school worker draws careful conclusions from his own experience and observation But ambitious to improve his service to his Master he seeks to possess himself of the riches of the accumulated experiences of the great host of Sunday school workers as formulated by specialists It is the purpose of this course to present clearly and briefly the best that has been learned by the most successful workers about the pupil the teacher the school and the Bible I Those who fail One of the poorest of superintendents had been working as superintendent for ten years He was always present and always on time He was a devout Christian He prayed enough and he worked enough but he did not know how He had not felt the necessity of learning from those who knew how He did not take a training course and he did not visit other Sunday schools or attend conventions and institutes If he had learned from others he would not have opened his Sunday school in one stereotyped way every Sunday morning and he would not have made that long talk every Sunday morning Nor would he have had the same program Sunday after Sunday In this same Sunday school was a young woman who had been the teacher of a class of boys since they were nine years of age and they were now sixteen She was a failure as a teacher She did manage to keep them fairly quiet and to do some sort of teaching when they were only nine but now she could not even keep them half way in order to say **Teacher-training Essentials** Henry Edward Tralle,1914

**A selection of monographs on successful practices** Martina Vránová,2023-05-23 As Languages for Specific Purposes have always been defined as student oriented the rationale behind this volume is to use the rather neglected niche of the other necessary agent of language instruction and thus focus on the LSP practitioner This turn towards the instructor has been motivated by the fact that a great number of LSP practitioners enter their jobs without previous expertise They lack LSP education or they may not even have a background in applied linguistics This motivation has proven valid as many of the volume s contributors have faced this particular situation in their professional lives For insights into the LSP field and guidelines on the best practices they must rely on their colleagues who offer to share their experience through workshops conferences or papers which is what this volume provides The primary goal of this volume is to present considerations of what challenges LSP practitioners face and should be prepared for in their jobs and to provide practice tested methodological guidelines on such demanding teaching techniques as blended and flipped learning or tandem learning All papers have been written by LSP practitioners and researchers in higher education Thus this volume provides both guidance and self reflection In other words it is written by experienced LSP practitioners for aspiring LSP practitioners about how they see themselves and what effort they make to meet the challenges of their jobs As proof that LSP practice is a global challenge papers have been collected from many European countries the USA Uruguay Even though most papers are naturally concerned with English being the lingua franca of today the collection also features guidelines for teaching Spanish French and Dutch for specific purposes Moreover the target disciplines these languages are taught for encompass business engineering sociology or medicine thus supporting the assumption of the universal character of problems LSP practitioners deal with
