

Unit IV: CRIMINOLOGY (final exam)

Tuesday, Thursday, Tuesday material
2 chapters: chapter 7 and 9 (only 8)

Chapter 7: social process theories

Edwin Sutherland: famous historical criminologist

- invented the phrase "white collar crime"
- 1939: wrote *Principles of criminology* (VERY FIRST CRIMINOLOGY TEXTBOOK WRITTEN)
- Started as sociologist
- Came up with theory of differential association (originally never meant to be a theory)
 - o Probably best theories criminologist may have
 - o **Very first cognitive social learning theories in criminology** (more than just sociologist, also psychologist)

Influenced Sutherland:

T. Seltin: Culture conflict theory: different cultures believed in different things

Gabriel Tarde: Law of imitation

Artistic: the doctrine of pleasure (everybody needs to have fun/pleasure)

1920s:

- Learning: permanent change as a result of change
 - o John Locke and Thomas Hobbes: we learn from experience, past, "have learnt from before"
 - o J. Watson: we learn from our environment (famous for "Little Albert")

"Little Albert": experiment where Albert was conditioned to be afraid of white animals

- o Ivan Pavlov: classical conditioning (suggested stimulus response)

Classical conditioning: ring a bell for food and dog will learn to salivate at that time

- o E. L. Thorndike: puzzle box (cat in a puzzle box with food at the finish, the cat finds its way out => less of good effect: behavior followed by good good effect is repeated)
- o B. F. Skinner: classical condition is stimulus response coming up with operant conditioning
- o He says he can explain any behavior with...
 - Stimuli
 - Response (what did you do)
 - Consequences

Consequences:

1. **Reinforcement:** increases likelihood of the response
 - a. Positive: adding something
 - b. Negative: removing it
2. **Punishment:** decreases likelihood of response
 - a. Positive: adding something
 - b. Negative: removing something

Social learning theory: more to it than stimulus response and consequences (mind matters)

S -> R -> R -> C

Albert Bandura: humans have capability of learning by watching others

Acquiring info vicariously through others and observation

Cognitive theory: identical people in the same situation may interpret things differently; there's a lot more to it
