Game Of Thrones Map Of The Seven Kingdoms:

Game of Thrones - A View from the Humanities Vol. 1 Alfonso Álvarez-Ossorio, Fernando Lozano, Rosario Moreno Soldevila, Cristina Rosillo-Lopez, 2023-03-20 This book reflects on time space and culture in the Game of Thrones universe It analyses both the novels and the TV series from a multidisciplinary perspective ultimately aimed at highlighting the complexity eclecticism and diversity that characterises Martin s world The book is divided into three thematic sections The first section focuses on space both the urban and natural environment and the interaction between human beings and their surroundings The second section follows different yet complementary approaches to Game of Thrones from an aesthetic and cultural perspective The final section addresses the linguistic and translation implications of the Game of Thrones universe as well as its didactic uses This book is paired with a second volume that focuses on the characters that populate Martin s universe as well as on one of the ways in which they often interact violence and warfare from the same multidisciplinary perspective

Concept TV Luca Bandirali, Enrico Terrone, 2021-11-08 What is a television series A widespread answer takes it to be a totality of episodes and seasons Luca Bandirali and Enrico Terrone argue against this characterization In Concept TV An Aesthetics of Television Series they contend that television series are concepts that manifest themselves through episodes and seasons just as works of conceptual art can manifest themselves through installations or performances In this sense a television series is a conceptual narrative a principle of construction of similar narratives While the film viewer directly appreciates a narrative made of images and sounds the TV viewer relies on images and sounds to grasp the conceptual narrative that they express Here lies the key difference between television and film Reflecting on this difference paves the way for an aesthetics of television series that makes room for their alleged prolixity their tendency to repetition and their lack of narrative closure Bandirali and Terrone shed light on the specific ways in which television series are evaluated arguing that some apparent flaws of them are indeed aesthetic merits when considered from a conceptual perspective Hence to maximize the aesthetic value of television series one should not assess them in the same framework in which films are assessed but rather in a distinct conceptual framework

Cinematic Tourist Mobilities and the Plight of Development Rodanthe Tzanelli, 2018-11-09 It is said that movies have encroached upon social realities creating tourism enclaves based on distortions of history and heritage or simulations that disregard both What localities and nation states value are discarded suppressed or modified beyond recognition in neoliberal markets thus flattening out human experience destroying natural habitats in the name of development and putting the future of whole ecosystems at risk Without disregarding such developmental risks Cinematic Tourist Mobilities and the Plight of Development explores how en route to any beneficial or eco destructive development film tourist industries co produce atmospheres of place and culture with tourists film fans local activists and nation states Drawing on international examples of cinematically induced tourism and tourismophobic activism Tzanelli demonstrates how the allegedly unilateral industry driven design of location stands at a

crossroads between political structures systems of capitalist development and resurgent localised agency With an interdisciplinary methodological and epistemological portfolio connected to the new mobilities paradigm this volume will appeal to scholars students and practitioners interested in tourism migration and urban studies in sociology anthropology geography and international relations

The Microeconomic Mode Jane K. Elliott,2018-06-26 From The Road to Game of Thrones across works as seemingly different as Gone Girl and Saw literature film and television have become obsessed with the intersection of survival and choice When the trapped rock climber hero of 127 Hours is confronted with self amputation or death it is only a particularly blunt example of an omnipresent set up In real life settings or fantastical games protagonists find themselves confronting extreme scenarios with life or death consequences forced to make torturous either or choices in stripped down brutally stark environments Jane Elliott identifies and analyzes this new and distinctive aesthetic phenomenon which she calls the microeconomic mode Through close readings of its narratives tropes and concepts she traces the implicit theoretical and political claims conveyed by this combination of abstraction and extremity In the microeconomic mode humans isolated from any forms of social organization operate within a mini economy of costs and benefits gains and losses measured in the currency of life Elliott reads the key concepts that emerge from this aesthetic life interest sovereign capture and binary life in relation to biopolitics and natural law theory becoming and the control society and primitive accumulation in racial capitalism The microeconomic mode interrogates the destruction of the liberal political subject but what it leaves in its place is as disturbing as it is radically new Going beyond the question of neoliberalism in literature The Microeconomic Mode combines revelatory close readings of key literary and popular texts with significant theoretical interventions to identify how an aesthetics of choice has reshaped our contemporary understanding of what it means to be human
