Our World Herbert Sherman Houston,1922 **Our World Weekly** ,1925 **U.S.-China Strategic Relations and Competitive Sports** David Lai,2022-02-21 This book investigates cultural influences of competitive sports on U S and Chinese strategic thinking and tactical behavior Most competitive sports owe their origins to human fighting Although they are ritualized contests competitive sports have retained many aspects of human warfare especially the use of strategy and tactics that moves human contest beyond military clashes to the subjugation of opponents without bloodshed Cultural influences usually go unnoticed Indeed Washington often conducts foreign affairs like football games without knowing that is the case Likewise Beijing moves in Weiqi style subconsciously This book uncovers these influences *Games Advisors Play* Jean A. Garrison,1999 What happens when presidential advisors in Machiavellian terms think more of themselves than of the prince and seek their own profit more than the goals of the president or the good of the realm In *Games Advisors Play* Jean A Garrison examines case studies of foreign policy in the Nixon and Carter administrations and addresses how and why advisors manipulate the group process under what conditions advisors engage in power games and in what situations they are most effective in influencing presidential policy choices Given the high stakes policy advocates employ various tactics to manipulate the advisory process and decision outcome Three types of tactics are used structural maneuvers procedural maneuvers and interpersonal maneuvers Although these tools are important to the success of an advisor the advisory process is a dynamic group process and advisors must recognize that others have potential influence as well The effectiveness of

advisors therefore also depends on their power and authority their manipulative skills their interpersonal communication skills and the relationships among members of the inner circle Using the internal policy debate over arms control to trace the influence advisors have on specific decisions Garrison compares the power games in Nixon s hierarchical system Number Three Joseph V Hughes Jr and Holly O Hughes Series in the Presidency and Leadership Studies to Carter s more open advisory system The disparate advisory systems provided advisors with different opportunities to influence the president and overall policy making As a contribution to the decision making literature in foreign policy Games Advisers Play challenges static conceptions of the advisory process Foreign policy scholars presidential scholars and political psychologists will find this an exciting and thought provoking study
