IELTS Collected Papers 2 Lynda B. Taylor, Lynda Taylor, Cyril J. Weir, 2012-02-23 This volume reports research that informs the development of reading and listening assessment in IELTS This volume brings together a set of eight IELTS related research studies four on reading and four on listening conducted between 2005 and 2010 Findings from these studies provide valuable evidence on the validity reliability impact and practicality of the IELTS test they are also instrumental in highlighting aspects needing attention and thus directly inform the continuing evolution of the IELTS reading and listening tests The volume reviews and comments on the specific contribution of each study to the ongoing process of IELTS reading and listening test design and development

Building a Validity Argument for a Listening Test of Academic

Proficiency Vahid Aryadoust, 2013-07-26 Over the years various approaches to validation have emerged in psychological and educational assessment research which can be classified into traditional approaches and modern approaches Traditional approaches view validity as a multicomponential concept including for example content construct and predictive validity while modern approaches conceptualize it as a unitary concept evaluated through argumentation Drawing on the modern approach this book builds a validity argument for an International English Language Testing System IELTS listening test sample The book provides some insights into the listening sub skills that the test engages the psychometric dimensionality of the test variables that predict item difficulty parameters bias across age nationality test experience and gender as well as predictive referenced evidence of validity A variety of techniques including the Rasch model and structural equation modelling are used to answer the research questions and to build a validity argument framework this argument organizes the thematically related findings into a coherent treatment of the validity of the listening test The book presents the first treatment of validity argument and related analytical tools in one volume and maps the psychometric statistical analysis tools onto the validity argument framework It also provides an extensive literature review of listening comprehension validation and psychometric modeling and proposes both methods for developing and validating self assessment instruments and novel approaches to improving the quality of language assessments
