Rodney, 2019-05-13 *The Personalization of the Museum Visit* examines a fundamental shift in institutional behavior in museums located in the United States and the United Kingdom. Contending that art museums have moved toward a new paradigm of public engagement, it posits that modern museum visitors are treated as self-directed clients with the agency to make meaning for themselves. The book then considers how this change has come about, examining factors such as the onset of a new museology, an experience economy, and a marketing revolution. Drawing on extensive research undertaken at Britain's Tate Modern, the book examines a range of issues including visitor engagement, curatorial practice, and museum management. A visit experience that is customizable to the individual visitor in which curators and marketers work together with visitor clients to create an experience of personalized meaning is, Rodney argues, rising in prevalence in the art museum field, but it is also being stymied by certain structural impediments. This book examines such obstacles, including institutional division of labor, long-standing conceptions or misconceptions of the museum's mission, and the orientation of museums toward a certain conceptual model of their visitors. *The Personalization of the Museum Visit* is essential reading for scholars and students engaging with issues of visitor engagement, curatorial practice, and museum management. With a particular focus on the role of business interests and public policy, the book should also be of interest to those undertaking research in fields outside of museum and visitor studies.

*World Without Words* Michael Evamy, 2003. Leading his readers on a voyage through the visual shorthand of modern life, the author argues that we are relying less on words for navigating the world than on images and graphic devices. This sourcebook shows the attempts of designers to condense words and data down to their simplest equivalents. It illustrates the familiar, the peculiar, and the confusing visual language that we are asked to interpret: symbols, graphs, and charts, maps mixed up with the more graphic examples of data storage and identification that are read not by humans but by machines: barcodes, magnetic strips, holograms. Featuring airport signs, road markings, pictograms, maps, diagrams, packaging, logos, and symbols, this compendium of visuals shows not only the norms of wordless graphic communication but also how these vary around the world when interpreted by local individuals for different cultures.

*Logotype*, 2005. Logo Michael Evamy, 2015. This vast collection of over 1,300 symbols and logotypes, clearly arranged across 75 different categories according to their basic visual form, includes work of past masters such as Paul Rand and Saul Bass alongside some of the most exciting work from contemporary designers. This is a complete taxonomical guide to the history, development, and style of identity design. Page 4 of cover.

*TypoLogo* Michael Evamy, 2012. Wenn Buchstabenkombinationen im Kopf der Kunden zu gespeicherten Bildern werden, entfalten sie die vom Branding gewünschte Wirkung. Sie werden nicht weiter gelesen, sondern wieder erkannt. Ein Typologo ist die ideale Kombination aus verbalem und visuellem Bestandteil aus Kreativität und handwerklicher Feinstarbeit. Dazu muss man wissen, wie Schrift wirkt. Deshalb beginnt Michael Evamy seine 350-seitige *Tour de Typologo* folgerichtig mit einem Feuerwerk straff kommentierter Meisterstücke, die zeigen, alles in der Font bevor er anhand unzähliger Beispiele die Vor- und Nachteile von Verzierung und Reduktion

von Schrägen Schichtungen und Spiegelungen Spielereien Sonderzeichen Ziffern Flächen und Rahmen erlaubt Damit bietet TypoLogo Anregung und Argumente und ein hochkartiges Umfeld in dem Sie die Durchsetzungskraft Ihrer Entwürfe aufs Beste testen können Artbibliographies Modern, 1999 **Design**, 1993-07 **Design & Applied Arts Index**, 1997
