Lungbarrow:

Lungbarrow Marc Platt, 1997 All is not well on Gallifrey The House of Lungbarrow where the Doctor left his family 673 years ago has disappeared In the seventh Doctor s final New Adventure he faces a threat that could uncover the greatest secret of them all Once Upon a Time Lord Ivan Phillips, 2020-02-20 Every story ever told really happened The Doctor Hell Bent 2015 Stories are fundamentally what Doctor Who is all about In Once Upon a Time Lord Ivan Phillips explores a wide range of perspectives on these stories and presents a lively and richly varied analysis of the accumulated tales that constitute this popular modern mythology Concerned equally with classic and new Who Phillips looks at how aspects of the Time Lord s story have been developed on television and beyond tracing lines of connection and divergence across various media He discusses Doctor Who as a mythology that has drawn on its own past in often complex ways at the same time reworking elements from many other sources whether literary cinematic televisual or historical Once Upon A Time Lord offers an original take on this singular hero s journey reading the unsettled enigma of the Doctor in relation to the characters narratives and locations that he has encountered across more than half a century Who's 50 Graeme Burk, Robert Smith, 2013-10-01 Like being thrown the keys to the TARDIS with a temporal map to visit all those not to be missed adventures in time and space Phil Ford Doctor Who writer Ever since its premiere on November 23 1963 Doctor Who has been a television phenomenon This companion guide presents the top fifty stories from the show s first fifty years examining every corner of the imaginative humorous and sometimes scary universe that has made Doctor Who an iconic part of popular culture This must have reference also includes behind the scenes details goofs trivia connections to Doctor Who lore and much more *Doctor Who-Guide 1/3* compiled from Wikipedia pages and published by Dr Googelberg, 2012-08-07 Almost everything about the good doctor his companions and travels his enemies and friends Additionally the actors etc Part three contains all summaries of all TV episodes Compiled from Wikipedia pages and published by Dr Googelberg **Being a Girl with The Doctor** Gillian I. Leitch, Sherry Ginn, 2023-12-11 Throughout the long running BBC series Doctor Who the Doctor has rarely been alone traveling with both female and male companions The companion is essential to Doctor Who because he or she is a stand in for the audience providing information about the Doctor s ongoing adventures With the casting of a female actor in the role of the Doctor in 2018 one criticism of the series was finally resolved After the shift in gender identity the role of the Doctor and the companion also shifted or has it The continued focus on romantic relations between the TARDIS occupants has led to complaints from both male and female fans reiterating and reinforcing myriad criticisms about the portrayal of the female companions Essays in this book consider how gender is presented in Doctor Who and how certain female companions have been able to break out of the gendered roles usually assigned to them through the classic and new series *TARDIS Eruditorum: An Unofficial Critical History of Doctor Who Volume 8: Paul McGann and Christopher Eccleston* Elizabeth Sandifer, 2023-12-09 In this eighth volume of essays adapted from the acclaimed blog TARDIS

Eruditorum you'll find a critical history of the Paul McGann and Christopher Eccleston eras of Doctor Who TARDIS Eruditorum tells the ongoing story of Doctor Who from its beginnings in the 1960s to the present day pushing beyond received wisdom and fan dogma to understand the story not just as the story of a geeky sci fi show but as the story of an entire tradition of mystical avant garde and politically radical British culture It treats Doctor Who as a show that is really about everything that ever happened and everything that ever will This volume focuses on the end of the so called wilderness years and the series triumphant 2005 return to television looking at its connections with weird fiction reality television and the Spice Girls The book contains a mixture of revised blog posts and a bevy of brand new essays exclusive to this collected edition including a look at the strange continuity of the Paul McGann era the astonishing cultural footprint of the new series and an all new section on the John Hurt era Plus you'll learn How many Time Wars there were What happens when a minor tie in work gains sentience The metaphor at the heart of both Doctor Who and Big Brother

Time and Relative Dissertations in Space David Butler, 2007 With essays addressing core themes such as genre narrative authorship visual style music sound audiences adaptations and the portrayal of history on screen Time And Relative Dissertations In Space will be of interest to those involved in the wider field of Television Studies as well as readers with a fascination and love for Doctor Who

Timeless Adventures Brian J. Robb, 2009 Reveals how Doctor Who is at its strongest when it reflects the political and cultural concerns of a mass British audience as in the 1960s 1970s and 21st century and at its weakest when catering to a narrow fan based audience as in the 1980s Chapters range from discussions of the cultural and political relevance of Doctor Who monsters like the Daleks and the Cybermen through to the show's treatment of themes like energy and the environment in the 1970s

Foundation, 1999 Doctor Who Lance Parkin, 1996 At last the complete timeline of the Doctor Who universe from Event One to the universe's final destruction billions of years in the future This essential reference work reveals the full story of the Daleks the Cybermen and the Time Lords as well as a comprehensive history of Earth and humankind from primitive African tribes to galactic conquest With dates ranging from the obvious to the obscure this book is truly an indispensable guide to the world of Doctor Who
