me feel good Psychologically if you actually write something down on a piece of paper it is more powerful than some virtual numbers So I am not an app person when it comes to macros In this book I ll give you some tips on how to save calories carbs and fat and how to make up if you are not hitting your protein target or consumed too much fat for your lunch I also left many empty spaces for you where you can write down YOUR favourite food You can create your favourite breakfasts and meals and easily adjust the recipes you like By the end of this book you will be able to calculate your macros easily create your own recipes and you will have 3 breakfasts 5 10 mains and 3 treats to get you started I wish you all the best for your lifestyle change and fitness journey
