Flawed: The Rise and Fall of India's Diamond Mogul Nirav Modi Pavan C. Lall,2024-11-20 In early 2018 the spectacular collapse of Nirav Modi's Firestar Diamonds International once poised to become India's first global luxury brand sent shockwaves through the country's diamond industry and banking system Accused of defrauding banks of US 1.8 billion Modi's downfall cast a harsh spotlight on an entire business community and ignited an international scandal Through personal encounters sharp interviews and meticulous research this gripping account unravels the astonishing twists in the Nirav Modi saga From his beginnings as a third generation diamantaire apprenticing under his uncle Mehul Choksi to building a worldwide empire with stores in London New York and Hong Kong Modi appeared to have it all Yet behind the facade of success lay a reclusive man with a taste for the high life one whose ambitions may have pushed him too far Flawed vividly chronicles the meteoric rise of a global player and his dramatic fall from grace Arresting and thought provoking it raises crucial questions about how one man's relentless pursuit of success can bring an entire system to the brink of collapse

Tax, Inequality, and Human Rights Philip Alston,Nikki Reisch,2019-04-11 This book examines why taxation is central to the enjoyment or suppression of human rights in an age of rising nationalism authoritarianism and disillusionment with the traditional role of the state Taxation and human rights are at the heart of debates about the appropriate balance in society between the public and private sectors and ultimately the content of a new social contract

The Meritocracy Trap Daniel Markovits,2020-09-08 A revolutionary new argument from eminent Yale Law professor Daniel Markovits attacking the false promise of meritocracy It is an axiom of American life that advantage should be earned through ability and effort Even as the country divides itself at every turn the meritocratic ideal that social and economic rewards should follow achievement rather than breeding reigns supreme Both Democrats and Republicans insistently repeat meritocratic notions Meritocracy cuts to the heart of who we are It sustains the American dream But what if both up and down the social ladder meritocracy is a sham Today meritocracy has become exactly what it was conceived to resist a mechanism for the concentration and dynastic transmission of wealth and privilege across generations Upward mobility has become a fantasy and the embattled middle classes are now more likely to sink into the working poor than to rise into the professional elite At the same time meritocracy now ensnares even those who manage to claw their way to the top requiring rich adults to work with crushing intensity exploiting their expensive educations in order to extract a return All this is not the result of deviations or retreats from meritocracy but rather stems directly from meritocracy's successes This is the radical argument that Daniel Markovits prosecutes with rare force Markovits is well placed to expose the sham of meritocracy

Having spent his life at elite universities he knows from the inside the corrosive system we are trapped within Markovits also knows that if we understand that meritocratic inequality produces near universal harm we can cure it When The Meritocracy Trap reveals the inner workings of the meritocratic machine it also illuminates the first steps outward towards a new world that might once again afford dignity and prosperity to the American people
