

# STRATEGY FORMULATION IN DIVERSIFIED COMPANIES

## 8

*Thus far we have discussed about strategy making in a single-business enterprise. This unit specifically examines strategy-making in a diversified company. Although the strategy-making tasks in a single-business environment are applicable to a diversified company, some additional strategic issues are also involved. Strategy-making in a diversified company (in other words, corporate strategy-making) is, thus, a 'bigger-picture exercise' than the strategy-making in a single-business company.*

*In this unit, we address the issues, like, Meaning and nature of a diversified company, When should a company diversify its business?, How can a company diversify its business/choose the diversification path?, Related diversification and unrelated diversification, Strategies for entering into new businesses, Post-diversification strategies/strategic options for a diversified company, Evaluating the strategies of diversified companies etc...*

margins consumers lack of confidence in the banking system and operational cost problems threaten retail banks in mature markets such as Germany 2 Postbank a major German retail bank with a strong domestic customer base is one of the players that have to make strategic adjustments to cope with a changing economic landscape But what will these strategic adjustments be and in which priority do they need to be undertaken Although literature on the financial crisis and expected changes in banking industry is paramount so far little attention has been given to showing how strategy in the retail banking segment in the distinct geographic location of Germany will have to look like for a specific player in the post financial crisis era
