Beyond Earth Bob Krone, 2006 This is a critical time for the space program and for all of us Even the significant steps that we have taken since the dawn of the space age in 1957 including orbital flight the Moon landings and orbiting space stations will in retrospect seem to be tiny steps compared to what lies ahead Migrating into space will challenge us beyond anything we have previously accomplished and we are destined to face adventures that are both fantastically breathtaking and supremely dangerous Beyond Earth is for everyone interested in humankind s next great adventure the human settlement of the Solar System A unique collection of world class scholars scientists engineers managers astronauts artists authors and professors examine the key questions of our unique circumstance at the dawn of a new era in space exploration and development Why does space matter to us What can we use it for How can we get there efficiently What will ordinary life be like in space What will our homes be like on the Moon On Mars In orbit Will we play Will we love The book does not stop with questions It goes beyond the dramatic the superficial and the overly technical to the prescriptive literally laying the brick and mortar for our future space faring civilisation Contributing authors come from both hard and soft sciences include education and the arts and ask children who will be the future space dwellers for their visions They document needed research There are three underlying assumptions driving this book First that the human urge for flight exploration and survival plus its curiosity about the universe are deeply embedded in our genes and in our minds Second that even if these urges were ignored the continual improvement of the quality of life for the human race on earth and perhaps even its ultimate survival hinge on the successes of human exploration and habitation of space and Third that our generation can use the opportunity presented by outwards expansion to design a rewarding and exciting future of collaboration to capitalise on the lessons learned from human history on Earth

Applying the 'No Frills' concept to other specific Airline Businesses Sven Brueninghaus, 2004-04-05 Master s Thesis from the year 2004 in the subject Business economics Business Management Corporate Governance grade 1 7 A University of Applied Sciences Essen IOM Frankfurt language English abstract The No Frills Airline concept is not a

phenomenon of the last couple of years in the Airline industry even if the recent development of these carriers in Europe might lead to this conclusion The first Airline operating under the No Frills concept started in the beginning of the 1970ies in the USA and it took quite a while until this concept was followed by Airlines in Europe South America and Asia Pacific There were a lot of No Frills Airlines coming and going again in the last 33 years To start an Airline and define it as a No Frills carrier seems to be not enough to be successful in the market for a lot of years Only a very restricted number of these Airlines were successful and profitable for years The question is why What are the reasons why some No Frills Airlines are surviving and others do not This is one of the questions which will be answered in this paper The low cost and low price strategy which is the basis for the No Frills concept in the Airline Industry is a business concept which was described by Porter as one of the basic strategies a company can follow This strategy was followed by a lot of companies in other industries like ALDI IKEA and Toyota These companies followed successfully the cost leadership strategy but adopted also other strategic goals to their business concept like quality and corporate culture items The cost leadership strategy is nothing new but how can it be reached and maintained in the Airline industry What are the prerequisites and the required activities to be successful in this industry with this concept In this paper answers to these questions will be given
