Iranian Tigers At War:

Iranian Tigers at War Babak Taghvaei, 2015 The development of the F 5 lightweight supersonic fighter in the mid 1950s was almost a gamble for the Northrop Corporation but ultimately resulted in one of most commercially successful combat aircraft in modern history Iran was one of its major export customers yet the long and often violent history of deployment of the F 5 in that country has largely escaped attention of historians No less than 309 aircraft of five major variants of the jet the F 5A F 5B RF 5A F 5E and F 5F have provided the backbone of the front line strength of the Iranian Air Force since the mid 1960s Additional examples were clandestinely purchased from Ethiopia and Vietnam in the 1980s The type bore the brunt of combat operations during the long war with Iraq 1980 1988 and remains a mainstay of the Islamic Republic of Iran Air Force as of today This breathtaking account provides a detailed chronological history of the F 5 in combat service in Iran a history dominated by long range strikes against some of best defended targets inside Iraq and by thousands of dramatic close air support and reconnaissance sorties but also fierce air combats against the then most modern fighter types in Iraqi service including the MiG 23s and MiG 25s It is completed with practically unknown stories of their combat presence in Pakistan Afghanistan and the war against drug traffickers in recent years Good though the F 5 has been the advances of domestic Iranian aircraft building companies have resulted in attempts to continue the F 5 line with further redesign and developments resulting in a number of indigenous variants Combined this means that the diverse and involved story about one of most interesting military aircraft of modern times is still far from over The author s detailed text is fully supported by an extensive selection of photographs and color profiles Middle East War following on from our highly successful Africa War series Middle East War replicates the same format concise incisive text rare images and high quality color artwork providing fresh accounts of both well known and more esoteric aspects of conflict in this part of the world since 1945

Iran at War Kaveh Farrokh, 2011-12-20 Following on from his award winning book on the history of ancient Persia Kaveh Farrokh goes on to examine Iran s wartime history from the Safavid dynasty of the 16th and 17th century through to the 1979 Revolution and beyond He shows how the early military successes were followed by centuries of defeat as the external influences of nations like Russia and Britain began to shape the internal history of Iran before unraveling the complex violent 20th century military history of the country which encompasses two world wars regional movements foreign intervention anti government revolts conflicts on the Soviet border a revolution and an eight year war with Iraq Illustrated with contemporary illustrations and photographs this book provides an unparalleled investigation into the bloody martial history of Iran

The Iran-Iraq War Pierre Razoux, 2015-11-03 From 1980 to 1988 Iran and Iraq fought the longest conventional war of the twentieth century The tragedies included the slaughter of child soldiers the use of chemical weapons the striking of civilian shipping in the Gulf and the destruction of cities The Iran Iraq War offers an unflinching look at a conflict seared into the region s collective memory but little understood in the West Pierre Razoux shows why this war

remains central to understanding Middle Eastern geopolitics from the deep rooted distrust between Sunni and Shia Muslims to Iran's obsession with nuclear power to the continuing struggles in Iraq. He provides invaluable keys to decipher Iran's behavior and internal struggle today. Razoux's account is based on unpublished military archives, oral histories, and interviews as well as audio recordings seized by the U.S. Army detailing Saddam Hussein's debates with his generals. Tracing the war's shifting strategies and political dynamics, military operations, the jockeying of opposition forces within each regime, the impact on oil production so essential to both countries, Razoux also looks at the international picture. From the United States and Soviet Union to Israel, Europe, China, and the Arab powers, many nations meddled in this conflict, supporting one side or the other, and sometimes switching allegiances. The Iran-Iraq War answers questions that have puzzled historians: Why did Saddam embark on this expensive, ultimately fruitless conflict? Why did the war last eight years when it could have ended in months? Who, if anyone, was the true winner when so much was lost?

Iran-Iraq Naval War Tom Cooper, E.R. Hooton, Farzin Nadimi, Milos Sipos, 2024-07-04. Draws upon unique access to Iranian naval archives and examines in detail the naval war between 1981 and early 1984. Well away from the major battlefields on the ground in the Iran-Iraq War and hidden from the gaze of the curious public, the navies and air forces of the two belligerents contested the waters of the Persian or Arabian Gulf. This naval aspect of the war still remains largely unknown and hugely underreported in the West, other than in terms of the Tanker War and the impact upon international shipping. Yet this was a war in which Iran and Iraq pitted the best technologies available to them, bought from the world's leading arms manufacturers and exporters, against each other's vital oil production and exports, and against vital maritime lifelines. Iran, in particular, relied upon caravans of shipping to import raw materials, provide logistic support to the land war, and to export oil-based products. Iraq would make the first and by far most extensive combat use of the famous Exocet anti-ship missile long before its first claimed use by Argentina in the Falklands/Malvinas War, and would make extensive use of French-sourced electronic warfare capabilities and Soviet anti-radiation missiles. Iran would make the first combat use of the F-14 Tomcat and its associated AIM-54 Phoenix air-to-air missile, and would be the first to launch the RGM-84 Harpoon surface-to-surface missile in anger. Far from being a backwater, this was the testing ground for many cutting-edge technologies. Volume 2 of *Iran-Iraq Naval War* draws upon unique access to Iranian naval archives and examines in detail the naval war between 1981 and early 1984 as Iraq struggled to defeat Iran's highly organized maritime caravans, how each side experienced successes and failures in the employment of new technologies, and their efforts to counter these. This book is illustrated throughout with original photographs, many in color and never previously published in the West, and with specially commissioned color maps and the War series signature color artworks showing the ships and aircraft employed in this war.

Iran-Iraq War in the Air, 1980-1988 Tom Cooper, Farzad Bishop, 2002. This book focuses on the role of the air power in the Iran-Iraq War of 1980-1988. The authors made full use of extensive research, eyewitness accounts, interviews with dozens of people directly involved, as well as recently declassified

documents from around the world which are published here for the first time describes and analyzes both the development of the Iranian and the Iraqi air forces their involvement in combat operations while simultaneously discussing their organization and capabilities and detailing their equipment to detail Edited from publisher s web site
