Politics And International Relations In The Middle East

David Kirk

Politics And International Relations In The Middle East:

International Relations of the Middle East Louise L'Estrange Fawcett,2016 Now in its fourth edition International Relations of the Middle East provides a thematic overview of the subject combining a history of the region with analysis of key themes actors and conflicts as well as topical material and perspectives **The Middle East in International**

Relations Fred Halliday,2005-01-24 The international relations of the Middle East have long been dominated by uncertainty and conflict External intervention interstate war political upheaval and interethnic violence are compounded by the vagaries of oil prices and the claims of military nationalist and religious movements The purpose of this book is to set this region and its conflicts in context providing on the one hand a historical introduction to its character and problems and on the other a reasoned analysis of its politics In an engagement with both the study of the Middle East and the theoretical analysis of international relations the author who is one of the best known and most authoritative scholars writing on the region today offers a compelling and original interpretation Written in a clear accessible and interactive style the book is designed for students policymakers and the general reader *Middle East Politics and International Relations* Shahram

Akbarzadeh,2022-10-28 As featured on BookAuthority s list of best International Relations books to read in 2024 Continuing civil wars and humanitarian crises coupled with a changing geopolitical dynamic highlighted by increased Russian and Chinese presence in the Middle East call for new thinking What happens in the Middle East has major global repercussions This second edition of the ground breaking textbook Middle East Politics and International Relations Crisis Zone provides a comprehensive overview of contemporary Middle East politics The book traces the roots of recent events across the region s modern history enabling readers to appreciate both the significance of such events and the importance of history in influencing their outcomes Structured chronologically with updated stand alone chapters containing history context and contemporary analyses this edition examines a series of interconnected themes and issues including external intervention political manifestations of Islam the role of political authority nationalism self determination and human rights The book provides a valuable teaching tool both in its content and structure Students will gain a deeper understanding of a changed Middle East and the evolving role of states and non state actors in the region **International Relations of the**

Contemporary Middle East Tareq Y. Ismael,1986 This is a much needed up to date general overview of the role of the Middle East in international relations The book was specifically designed as a comprehensive text which would serve courses in Middle East politics and international relations [New Perspectives on Middle East Politics](#) ,2021-03-02 **The**

International Relations of the Middle East in the 21st Century Tareq Y. Ismael,2017-03-02 A comprehensive and timely survey of Middle Eastern international relations Tareq Ismael provides in depth analysis of the interrelated dimensions of confrontation that have entangled almost every aspect of life in the region transforming it into a penetrated political system Essential for readers interested in the Middle East international relations politics history and public policy **International**

Politics and the Middle East Leon Carl Brown, 1984

Middle East Politics and International Relations Shahram

Akbarzadeh, Kylie Baxter, 2018 The contemporary Middle East has been defined by political crises and conflict The interplay of internal and external factors have set the region on a path of turmoil and crisis with devastating outcomes for its people The absence of political accountability and representation and policies pursued by the United States to keep US friendly regimes in power have been two key factors that have contributed to the seemingly insoluble Middle East politics This book provides a detailed exploration of the forces internal and external that have shaped today s Middle East The book follows a chronological order and provides context to major political milestones Topics explored include Imperialism in the Middle East The formation of the State of Israel The Arab Israeli wars Palestinian politics and the failure of the peace process The Iranian Revolution and pan Shi ism Superpowers in the Middle East The US led War on Terror The Arab uprisings The Syrian War and the rise of the Islamic State US Iran relations This study puts recent developments in historical context and will serve as a core reference tool for students and researchers of Middle Eastern Politics and International Relations

The International Relations of the Contemporary Middle East Tareq Y. Ismael, Glenn E. Perry, 2013-10-01 The Middle East a few decades ago was seen to be an autonomous subsystem of the global international political system More recently the region has been subordinated to the hegemony of a singular superpower the US bolstered by an alliance with Israel and a network of Arab client states The subordination of the contemporary Middle East has resulted in large part from the disappearance of countervailing forces for example global bipolarity that for a while allowed the Arab world in particular to exercise a modicum of flexibility in shaping its international relations The aspirations of the indigenous population of the Middle East have been stifled by the dynamics of the unequal global power relationships and domestic politics of the countries of the region are regularly subordinated to the prerogatives of international markets and the strategic competition of the great powers Employing the concept of imperialism defined as a pattern of alliances between a center rulers in the Center developed country and a center client regime in the Periphery underdeveloped country as an overall framework to analyse the subordination of the region this book is essential reading for students and scholars of the Middle East International Relations and Politics in general

Politics and International Relations in the Middle East Clement M. Henry, Steven

Heydemann, 1980

Routledge Handbook of International Relations in the Middle East Shahram Akbarzadeh, 2019-03-26

This handbook examines the regional and international dynamics of the Middle East It challenges the state society dichotomy to make sense of decision making and behavior by ruling regimes The 33 chapter authors include the world s leading scholars of the Middle East and International Relations IR in order to make sense of the region This synthesis of area studies expertise and IR theory provides a unique and rigorous account of the region s current dynamics which have reached a crisis point since the beginning of the Arab Spring The Middle East has been characterized by volatility for more than a century Although the region attracts significant scholarly interest IR theory has rarely been used as a tool to understand events The

constructivist approach in IR highlights the significance of state identity shaped by history and culture in making sense of international relations. The authors of this volume consider how IR theory can elucidate the patterns and principles that shape the region in order to provide a rigorous account of the contemporary challenges of the Middle East. The Routledge Handbook of International Relations in the Middle East provides comprehensive coverage of International Relations issues in the region. Thus it offers key resources for researchers and students interested in International Relations and the Middle East.

Religion and International Relations in the Middle East Sotiris Roussos, 2020. The volume has a twofold purpose: first to question main presuppositions and perceptions regarding religion and international politics in the Middle East and second to reflect on the roles of religion in the regional order. The first part deals with the contribution of religion to a post-Western turn in International Relations in the Middle East and beyond. It discusses the postsecular conceptual framework in order to expand their approaches to the analysis of the Middle East and addresses the search for religion's suitable place within International Relations, taking as a starting point the social changes in the world and the postulated Mesopotamian turn in International Relations. The second part focuses on the role of state-like non-state actors. ISIS challenged the international order because, contrary to revolutionary states in the past, it negates the foundations of the Westphalian system. At the same time, the rise of ISIS had a tremendous impact on the jihadi sub-system. The third part studies the impact of religion on foreign and security policy. Israel, UAE, UK, and Saudi Arabia. It explores how religion has been shaping each stage of the decision-making process, the position that religion holds in perceptions of stability in the post-2011 era, and the politics of moderate Islam, arguing that even though moderate Islam has been devised for creating soft power, it serves sharp power as well. *Saudi Arabian Foreign Relations* René Rieger, 2016-08-12. In recent decades, Saudi Arabia has committed itself to playing the part of mediator in intra-national and international conflicts in the greater Middle East region. Examples include the two Saudi-introduced Arab Peace Initiatives of 1982 and 2002, mediation attempts between Algeria and Morocco in the West Sahara conflict, Iraq and Syria during the Iran-Iraq War, and Iran and Iraq towards the end of their military conflict. *Saudi Arabian Foreign Relations* provides a new insight to current studies on Saudi foreign policy and mediation in international relations. The book offers a detailed analysis of Saudi Arabia's intermediary role in the intra-state conflicts in Yemen, Lebanon, and the Palestinian territories, and the successes and limitations of each. Additionally, it provides an updated examination of Saudi Arabia's role towards resolution of the larger Arab-Israeli conflict. *Saudi Arabian Foreign Relations* contributes to a far deeper understanding of Saudi foreign policy and therefore will be of great interest to students and scholars of Middle East Politics and International Relations. [International Relations in the Middle East](#) Ewan Stein, 2021-02-25. Covering a century of Middle Eastern international relations, this book develops an original approach to understanding regional conflict and cooperation. [Statecraft in the Middle East](#) Imad Mansour, 2016-09-27. What role do ideas play in state building and state activity? This book argues that government policies in both foreign relations and domestic

politics must always be situated within a broader ideational and societal context Imad Mansour analyses how governments in the contemporary Middle East have governed internally and acted externally based on societal narratives which bring together a variety of ideas about a society's history and place in the world He argues that there is a dominant societal narrative that acts as a primary building block of statecraft where statecraft is understood as an ongoing set of local regional and global state building processes Mansour investigates the ways in which statecraft in the Middle East has been guided by narratives through a close historical reading and comparative discussion of the political activity of six states Egypt Israel Syria Turkey Saudi Arabia and Iran in the second half of the twentieth century and the early twenty first century His book demonstrates the analytical power of narratives in understanding statecraft and explains why governments' decisions need to be understood in complex ways

Diplomacy in the Middle East L. Carl Brown, 2001-03-30 The Middle East has a distinctive diplomatic culture shaped by history geography and the social structures of Middle Eastern states This book seeks to survey the diplomatic relationships and the foundations of foreign policy making among the principle players in the region as well as exploring the Middle East policies of the four leading outside powers who have played such a crucial role in the region the US Britain France and Russia Contributors to this volume who are some of the most eminent specialists in their field search for common themes and disparities in Middle East diplomacy

The Kurds and US Foreign Policy Marianna Charountaki, 2010-10-18 This book provides a detailed survey and analysis of US Kurdish relations and their interaction with domestic regional and global politics Using the Kurdish issue to explore the nature of the engagement between international powers and weaker non state entities the author analyses the existence of an interactive US relationship with the Kurds of Iraq Drawing on governmental archives and interviews with political figures both in Northern Iraq and the United States the author places the case study within a broader International Relations context The conceptual framework centres on the inter relations between actors both state and non state and structures of material and ideational kinds while the detailed survey and analysis of US Kurdish relations in their interaction with domestic regional and global politics forms the empirical core of the study Stressing the intertwining of domestic and foreign policy as part of the same set of dynamics the case study explains the emergence of the interactive and institutionalized US relationship with the Kurds of Iraq that has brought about the formation within an Iraqi framework of an undeclared US official Kurdish policy in the post Saddam era Filling a gap in the literature on US Kurdish relations as well as the broader topic of International Relations this book will be of great interest to those in the areas of International Relations Middle Eastern and Kurdish Politics

Unfulfilled Aspirations Adham Saouli, 2020-03-30 The first volume of its kind to address concepts and theories of what constitutes a Middle Power in the Middle East

Turkey-Syria Relations Özlem Tür, 2016-02-17 In 1997 Turkey and Syria were on the brink of war engaged in a very real power struggle Turkey was aligned with Syria's main enemy Israel and there were seemingly intractable differences on the issues of borders the sharing of river waters and trans border communities In less than a

decade relations were transformed from enmity to amity Border issues and water sharing quarrels were moving towards amicable settlement and the two states policies toward the Kurdish issue converging Turkey undertook to mediate the Syrian Israeli conflict and close political and economic relations were developing rapidly between the two states Yet with the Syrian Uprising relations returned to enmity What explains these remarkable changes Given that Turkey and Syria are two pivotal states in the region what are the implications of this changing relationship for the international politics of the Middle East the balance of power and regional stability In this internationally collaborative work co edited by Raymond Hinnebusch and Zlem T r British Syrian and Turkish scholars address these questions and examine the various domestic and international drivers in this key regional relationship They discuss what theories best help us understand these seismic realignments and explore the impact of economic interdependence identity changes and power balances on the evolving relationship between these two key regional powers

Shocks and Rivalries in the Middle East and North Africa Imad Mansour, William R. Thompson, 2020-06-01

Shocks and Rivalries in the Middle East and North Africa is the first book to examine issue driven antagonisms within groups of Middle East and North Africa MENA states and their impact on relations within the region The volume also considers how shock events such as internal revolts and regional wars can alter interstate tensions and the trajectory of conflict MENA has experienced more internal rivalries than any other region making a detailed analysis vital to understanding the region s complex political cultural and economic history The state groupings studied in this volume include Israel and Iran Iran and Saudi Arabia Iran and Turkey Iran Iraq and Syria Egypt and Saudi Arabia and Algeria and Morocco Essays are theoretically driven breaking the MENA region down into a collection of systems that exemplify how state and nonstate actors interact around certain issues Through this approach contributors shed rare light on the origins persistence escalation and resolution of MENA rivalries and trace significant patterns of regional change *Shocks and Rivalries in the Middle East and North Africa* makes a major contribution to scholarship on MENA antagonisms It not only addresses an understudied phenomenon in the international relations of the MENA region it also expands our knowledge of rivalry dynamics in global politics
