**Aran M. Lewis**

## **The Arab Spring End Of Postcolonialism Hamid Dabashi:**

The Arab Spring Hamid Dabashi, 2012-05-10 This pioneering explanation of the Arab Spring will define a new era of thinking about the Middle East In this landmark book Hamid Dabashi argues that the revolutionary uprisings that have engulfed multiple countries and political climates from Morocco to Iran and from Syria to Yemen were driven by a delayed defiance a point of rebellion against domestic tyranny and globalized disempowerment alike that signifies no less than the end of Postcolonialism Sketching a new geography of liberation Dabashi shows how the Arab Spring has altered the geopolitics of the region so radically that we must begin re-imagining the Middle East Ultimately the permanent revolutionary mood Dabashi brilliantly explains has the potential to liberate not only those societies already ignited but many others through a universal geopolitics of hope

**Beyond Post-colonialism. The construction of Identities Through Muting and Absenting of the Other.** Ahmed Musa, 2021-07-19 Essay from the year 2021 in the subject Cultural Studies Middle Eastern Studies grade 95 language English abstract This paper is an attempt to trace the absence of the West in the cultural creative modes of knowledge productions that emerged post the Arab social movements in Tunisia and Egypt Whenever we discuss or approach the subject of the construction of identities in post colonial studies the West who I represent here as the other is largely but not entirely perceived as consolidating against or formulating the identities of the East or the identities of the Rest This is evident in not only the revered works of prominent theorists like Edward Said Homi Bhabha and Gayatri Spivak but also in the works of other post colonial theorists and writers that emerged afterward However during the Arab Spring one of the most solidaristic and transcultural Arab movements that searched for more stable governing models at crossroads of global regional and national challenges creative new forms of formulating identities beyond post colonial theory emerged such as the Arab Spring poetic slogans as creative modes of knowledge production which moved away from the previous discourse of the post colonial Arab intellectuals built on a bifurcation identity and also in tandem revolting the internal regimes of knowledge production The new forms of cultural productions not only represented moments of self emergency social solidarity and construction of the self during traumatic moments but also in tandem absented and muted the West and East binaries and antithesis of representation

**Displacing Theory Through the Global South** Iracema Dulley, Özgün Eylül İçsen, 2024-04-02 Displacing Theory Through the Global South calls for reflection on the historical and geopolitical inequalities that have shaped theorization It asserts that what appears universal often involves generalizations that flatten the particular Critiquing the colonialist imperialist and Eurocentric perspectives that have historically impacted theorization in general and more specifically knowledge production about the so called Global South this volume seeks a different form of engagement that moves beyond such strictures Featuring essays that unsettle distinctions between the general and the particular it proposes a commitment to expanding notions of universality making theorization not only relevant and generative but ultimately transformative

**After the Arab Revolutions** Khalil Al

Anani, Abdelwahab El-Affendi, 2021-08-29 This book brings together experienced scholars from the region and beyond to cast new light on the challenges facing democratic transitions and democratic stability Rather than taking refuge in context and regional specificity to excuse failures to unpack Arab politics the book argues that sound political science should and could prove relevant across regions and cultures This radical critique reclaims and recasts the Transition Paradigm countering the habit of using advanced and successful democratic transitions as a template to be followed in other regions It argues that the Arab and broader Middle Eastern experience has important lessons to offer even in its failures For example it could help to explain the West's recent populist upsurge and other democratic reversals *Government and Politics of the Contemporary Middle East* Tareq Y. Ismael, 2015-10-05 This exciting new edition of the successful textbook for students of Middle Eastern politics provides a highly relevant and comprehensive introduction to the complexities of a region in constant flux Combining a thematic framework for examining patterns of politics with individual chapters dedicated to specific countries the book places the very latest developments and long standing issues within an historical context introducing key concepts from comparative politics to further explore the interaction between Middle Eastern history and the region's contemporary political development Presenting information in an accessible and inclusive format the book offers Coverage of the historical influence of colonialism and major world powers on the shaping of the modern Middle East A detailed examination of the legacy of Islam Analysis of the political and social aspects of Middle Eastern life alienation between state and society poverty and social inequality ideological crises and renewal Case studies on countries in the Northern Belt Turkey and Iran the Fertile Crescent Iraq Syria and Lebanon Israel Palestine and those West and East of the Red Sea Egypt and the members of the Gulf Cooperation Council moving through an historical examination to close analysis of the most recent developments and their political and social impacts Extensive pedagogical features including original maps and further reading sections provide essential support for the reader A key introductory text for students of Middle Eastern politics and history at advanced undergraduate and postgraduate levels this new edition has been extensively updated to also become a timely and significant reference for policy makers and any motivated reader *Literature, Cultural Politics and Counter-Readings* Anindya Sekhar Purakayastha, 2021-06-09 This book is an attempt at deconstructive counter reading or at what Jonathan Dollimore called creative vandalism 2018 of existing cultural or literary texts Deconstruction is a much maligned or a much misunderstood word and for many it usually bears a pejorative ring While most would flaunt their familiarity with some of its philosophic jargons for the majority it is an area to be dismissed as intellectual obscurity or abstruse high theory In fact there is a serious dearth of Derrida scholarship because of our collective aversion to Derrida that emanates from our lack of familiarity or engagement with deconstruction theory or with the philosophy of deconstruction Norm deviant reading strategies of deconstruction offer fresh insights and rebellious interpretative possibilities Please note Taylor Francis does not sell or distribute the Hardback in India Pakistan Nepal Bhutan Bangladesh and Sri Lanka **Democracy, Dialectics, and**

**Difference** Brian C. Lovato,2015-12-07 It has been nearly two centuries since Marx famously turned Hegel on his head in order to repurpose dialectics as a revolutionary way of thinking about the internal contradictions of our social relations Despite critiques from post structuralists post colonialists and others there has been a resurgence of dialectical thought among political theorists as of late This resurgence has coincided with a rise in the mention of words like class warfare socialism and communism among the general public on the streets of Seattle in 1999 in Cairo s Tahrir Square in the actions of the Greek anarchists and the Spanish indignados and in the rallying cry of we are the 99% of the Occupy Movement and in academia This book explores how it is that dialectical thought might respond to the critiques brought forth by those on the left who are critical of Marxism s universalizing and authoritarian legacy Brian C Lovato singles out Ernesto Laclau and Chantal Mouffe as the key interlocutors in this ongoing conversation between Marxism and post structuralism Laclau and Mouffe argue that Marxist theory is inherently authoritarian cannot escape a class reductionist theory of revolutionary subjectivity and is bound by a closed Hegelian ontology Lovato argues the opposite by turning to two heterodox Marxist thinkers Raya Dunayevskaya and C L R James in order to construct a radically democratic dynamic and open conceptualization of dialectical thought In doing so he advances a vision of Marxist theory that might serve as a resource to scholars and activists committed not only to combatting capitalism but also to fighting against colonialism patriarchy white supremacy and heteronormativity The writings of Dunayevskaya and James allow for Marxism to become relevant again in these tumultuous early years of the 21st century *Humanitarian and Military Intervention in Libya and Syria* Aran M. Lewis,2022-12-30 This book explores the contradictions in Britain s humanitarian and military intervention in Libya and Syria beginning with the Arab spring in 2010 The book assesses the contradictions between the expressed humanitarian intentions of British military interveners and the impact of their actions on the putative beneficiary states It demonstrates that as a result of foreign intervention both Libya and Syria were rendered non functional as unitary nations and suffered extensive harm to their people and infrastructure To evaluate the effectiveness and credibility of humanitarian warfare the author conducts a thematic analysis of debates on Libya and Syria in the House of Commons The book provides a detailed study of intentions and motives expressed by Members of Parliament of consequent British state actions and their outcomes and of MPs reactions to outcomes It provides ample evidence of duplicity insincerity indifference to harm and ulterior motives for violence that undermine moral claims and support the argument that although humanitarian warfare may be possible the leading Western activist states Britain France and the USA are poorly qualified to carry it out Illustrating a systemic failure of strategy and accountability in British foreign policy this book will be of interest to scholars and graduates of Humanitarian Studies International Relations and Military Studies **The Muslim World Book Review** ,2011 □□□□□ □□□□□ □□□□ 2012, □□□□□□ **Relaciones internacionales** ,2013 Schriftenreihe der Vierteljahrshefte für Zeitgeschichte ,1960 *Iran* Hamid Dabashi,2007 **An Analysis of Hamid Dabashi's Iran** Bryan Gibson,2017-07-05 Hamid Dabashi s 2007

Iran A People Interrupted is simultaneously subtle passionate polarizing and polemical A concise account of Iranian history from the early 19th century onward Dabashi s book uses his incisive analytical skills as a basis for creating a persuasive argument against the views of Iran that predominate in the West In Dabashi s view Western approaches to Iran have been colored time and time again by the assumption that it is somehow trapped between regressive tradition and progressive modernity The reality he argues is quite the opposite Iran has its own distinctive ideology of modernity which is nevertheless opposed to many Western ideals In order to prove his point Dabashi draws on a lifetime s experience of literary criticism to analyse the relationship between Iran s intellectual and political elites over two centuries His analysis provides the key evidence for his reasoning by teasing out the implicit assumptions that underly the texts and people he examines Looking beneath the surface of the evidence Dabashi finds time and time again the traces of a uniquely Iranian notion of modernity that is quite at odds with its Western counterpart

*After Savagery* Hamid Dabashi, 2025-09-30 Written during a genocide After Savagery reveals the ethical bankruptcy of Western philosophy and how it undergirds the erasure of the colonized The death toll in Gaza continues to rise a cold lifeless number representing entire communities crushed under the weight of settler colonialism What remains of the theories we use to understand our world With lyrical and lucid fury Hamid Dabashi exposes the racist roots of Western philosophy demanding that readers overcome its pernicious phantom of relevance Rather than perceiving the West as giving carte blanche to Israel Dabashi insists that Israel must be understood as its quintessence If Israel is the West and the West is Israel then Palestine is the world and the world is Palestine Holding to glimmers from revolutionary works of literature and film Dabashi argues in grief and love that the wretched of the earth need poetry after barbarism and that Palestine is the site of a liberated imagination
