A List of Geographical Atlases in the Library of Congress, with Bibliographical Notes Philip Lee Phillips,1914

A List of Geographical Atlases in the Library of Congress Philip Lee Phillips,1920 Accession list of atlases received by the Library of Congress from 1909 1973 Volumes 3 6 each contain their own index **Post-Planck Cosmology** Cédric Deffayet,Patrick Peter,Benjamin Wandelt,Matías Zaldarriaga,Leticia F. Cugliandolo,2015-02-05 This book gathers the lecture notes of the 100th Les Houches Summer School which was held in July 2013 These lectures represent a comprehensive pedagogical survey of the frontier of theoretical and observational cosmology just after the release of the first cosmological results of the Planck mission The Cosmic Microwave Background is discussed as a possible window on the still unknown laws of physics at very high energy and as a backlight for studying the late time Universe Other lectures highlight connections of fundamental physics with other areas of cosmology and astrophysics the successes and fundamental puzzles of the inflationary paradigm of cosmic beginning the themes of dark energy and dark matter and the theoretical developments and observational probes that will shed light on these cosmic conundrums in the years to come United States Atlases Library of Congress. Map Division,1950 Analytical Artifacts B.S. Middleditch,1989-01-01 This encyclopaedic catalogue of the pitfalls and problems that all analysts encounter in their work is destined to spend more time on the analyst s workbench than on a library shelf The author has dedicated the book to the innumerable scientists who made mistakes used impure chemicals and solvents suffered the consequences of unanticipated side reactions and were otherwise exposed to mayhem yet were not too embarrassed to publish their findings Traditionally the mass spectroscopist or gas chromatographer learnt his trade by participating in a 4 6 year apprenticeship as graduate student and post doctoral researcher Generally no formal training was provided on the things that go wrong but this information was accumulated by sharing in the experiences of colleagues Nowadays many novice scientists simply purchase a computerized instrument plug it in and use it Much time can be wasted in studying and resolving problems due to artifacts and there is also a strong possibility that artifacts will not be recognized as such For example most analysts realize that they should use glass rather than plastic containers but few of them would anticipate the possibility of plasticizer residues on glassware washed using detergent from a plastic bottle This book is an easy to use compendium of problems encountered when using various commonly used analytical techniques Emphasis is on impurities by products contaminants and other artifacts A separate entry is provided for each artifact For specific chemicals this entry provides the common name mass spectrum gas chromatographic data CAS name and registry

number synonyms and a narrative discussion More than 1100 entries are included Mass spectral data are indexed in a 6 peak index molecular ion base peak second peak third peak and there are also formula author and subject indexes An extensive bibliography contains complete literature citations The book is designed to be used It will not only allow experienced analysts to profit from the mistakes of others but it will also be invaluable to other scientists who use analytical instruments in their work
