**Recent Advances in Radial Basis Function Collocation Methods** Wen Chen, Zhuo-Jia Fu, C.S. Chen, 2013-11-09 This book surveys the latest advances in radial basis function RBF meshless collocation methods which emphasis on recent novel

kernel RBFs and new numerical schemes for solving partial differential equations The RBF collocation methods are inherently free of integration and mesh and avoid tedious mesh generation involved in standard finite element and boundary element methods This book focuses primarily on the numerical algorithms engineering applications and highlights a large class of novel boundary type RBF meshless collocation methods These methods have shown a clear edge over the traditional numerical techniques especially for problems involving infinite domain moving boundary thin walled structures and inverse problems Due to the rapid development in RBF meshless collocation methods there is a need to summarize all these new materials so that they are available to scientists engineers and graduate students who are interest to apply these newly developed methods for solving real world s problems This book is intended to meet this need Prof Wen Chen and Dr Zhuo Jia Fu work at Hohai University Prof C S Chen works at the University of Southern Mississippi
