Evidence-based Strength Intervention in Multiple Contexts Wenjie Duan, Guannan Bai, Wanzhen Chen, Xiaoqing Tang, Chen Zheng, 2022-12-05 [Handbook of Research on Cyberchondria, Health Literacy, and the Role of Media in Society's Perception of Medical Information](#) Aker, Hacer, Aiken, Mary, 2021-12-17 Cyberchondria is characterized by a

pattern of excessive health based search behaviors that are likely to increase health anxiety or distress heightened by ever increasing access to and normalization of technology use and the internet specifically The internet can be a source of

valuable medical information and is an efficient vehicle for awareness raising and dissemination however it can increase anxiety in audiences without medical knowledge or training and can pose a challenge to the traditional gatekeepers of medical knowledge and expertise Technological advances are accelerating rapidly however concomitant to this acceleration an epidemic of online mis and dis information that has the capacity to negatively impact general health health literacy and health behaviors globally now exists The World Health Organization WHO has described this information overload as an infodemic The Handbook of Research on Cyberchondria Health Literacy and the Role of Media in Society's Perception of Medical Information covers a wide range of topics from the characteristics and prevalence of cyberchondria to the pandemic policy response and cybersecurity issues relating to eHealth initiatives and pandemic related surges in cybercrime Therefore this publication has transdisciplinary relevance to professionals from healthcare government law enforcement academia the technology sector media cybersecurity and education Graduate and undergraduate students may also find it to be a beneficial resource not only in terms of the study of cyberchondria but also in terms of the psychological and sociological implications of global crisis events One of the key messages of this book is as follows All stakeholders must work together strategically to disseminate authentic public health messages during any global health crisis They must work to reduce health related anxiety mediated by technology and seek to improve critical thinking skills and global health literacy

Oxford Handbook of Methods in Positive Psychology Anthony D. Ong, Manfred H. M. Van Dulmen, 2007 In the short time since the publication of the Handbook of Positive Psychology research results on the psychology of human strengths have proliferated However no major volume has documented the methods and theory used to achieve these results Oxford Handbook of Methods in Positive Psychology fills this need providing a broad overview of diverse contemporary methods in positive psychology With contributions from both leading scholars and promising young investigators the handbook serves to illuminate and at times challenge traditional approaches Incorporating multiple levels of analysis from biology to culture the contributors present state of the art techniques including those for estimating variability and change at the level of the individual identifying reliability of measurements within and across individuals and separating individual differences in growth from aspects of phenomena that exhibit shorter term variability over time The volume covers such topics as wisdom health hope resilience religion relationships emotions well being character strengths and laughter It enhances our understanding of the balance between human deficits and strengths and demonstrates their connections to other problems Oxford Handbook of Methods in Positive Psychology will be the essential reference for methods in positive psychology
