Changing Television Environments Manfred Tscheligi, Marianna Obrist, Arthur Lugmayr, 2008-07-05 This book constitutes the refereed proceedings of the 6th European Conference on Interactive Television EuroITV 2008 held in Salzburg Austria in July 2008 The 42 revised full papers were carefully reviewed and selected from 156 submissions The contributions cover significant aspects of the interactive television domain including submissions on user studies technical challenges related to new developments as well as new kind of formats The papers are organized in topical sections on interactive TV interactive authoring personalisation and recommender systems mobile TV social TV new TV environments iTV architectures and systems user interfaces and interaction design user studies and accessibility [Watching the Internet](#)

José M. Alvarez-Monzoncillo, 2022-03-03 This book deals with the Internet's influence on television The traditional value chain has been transformed giving rise to new forms of television that foster user generated content We no longer dream about interactivity but participation Accordingly the digital natives like to tag programs and films in the cyberspace each conveniently tagged so that other users can find it Although many questions have yet to be answered this decade's motto may be the tag is the medium However on demand television is unlikely to replace mass TV The Web 2.0 has brought an end to the my TV concept of the dotcom age and may put our TV in its place These changes pose serious problems The industry is facing the real threat of revenue cannibalization because current online business models are not financially rewarding The Internet is not yet a profitable market for programs that require additional revenues to advertising To date the box office video and premium television have been the main sources of revenue of the audiovisual industry This book explores the factors at play in this shift

Streaming Media with Peer-to-Peer Networks: Wireless Perspectives Fleury, Martin, 2012-05-31 The number of users who rely on the Internet to deliver multimedia content has grown significantly in recent years As this consumer demand grows so too does our dependency on a wireless and streaming infrastructure which delivers videos podcasts and other multimedia Streaming Media with Peer to Peer Networks Wireless Perspectives offers insights into current and future communication technologies for a converged Internet that promises soon to be dominated by multimedia applications at least in terms of bandwidth consumption The book will be of interest to industry managers and will also serve as a valuable resource to students and researchers looking to grasp the dynamic issues surrounding video streaming and wireless network development
