The Fifth Edition has been organized into three sections: 1. an overview of counseling and the counseling process; 2. multicultural counseling and counseling theories; and 3. special approaches and settings. It continues to address key topics and issues including gender, culture, and sexual orientation and offers ways to integrate multiculturalism into all aspects of counseling rather than view it as a separate entity. Highlighting emerging trends and changes in ethical codes as well as reflecting the latest updates to the Diagnostic Statistical Manual DSM-5, the book successfully illustrates the importance of art and science to modern-day counseling.
